11:00 Morning Worship.
7:45 p. m. Evening Evangelistic Service. There will be special singing and music by our 10 piece orchestra.
7:45 p. m. Thurs. prayer meeting and a short message.

OSC To Establish New Soil Testing Lab

Dr. Lawrence A. Alban, former soil instructor at California State Polytechnic college, has joined the soils department of the OSC agricultural experiment station. He will take charge of organizing a new soil testing laboratory at OSC.

A native of eastern Washington, Dr. Alban received his doctor of philosophy degree from OSC in 1950. He earned bachelor and master of science degrees at Washington State college in 1943 and 1948.

The new soil scientist will head a soil testing service to be provided for Oregon farmers later

From The County Agent's Office

By N. C. Anderson

Plans have been completed for a state-wide soil conservation field day at the Roy Forman ranch in Wasco County on Monday, May 26. Mr. Forman was the 1951 state winner in the "Conservation Man of the Year" contest sponsored by the Oregon Wheat Growers League.

Among the conservation practices that will be seen and discussed at the Forman ranch are seedings of crested wheatgrass, alone and with ladak alfalfa, pubescent wheatgrass and creeping alfalfa. Seeding of crested wheat in spring wheat stubble last fall, adding 100 lbs of ammonium nitrate, are looking good. Control of sage by a brush beater used last fall, contour diversion ditches and waterways, dam, sweep summer fallowing, sweet clover in alternate rows with spring wheat, double cropping of wheat with applications of nitrogen, hydraulic drill with two seed boxes, are a list of the practices to be seen.

Arrangements have been made for a livestock grading field day to be held at the Frank Anderson ranch, Heppner on May 16. H. A. Lindgren, Extension Animal Husbandman, Oregon State College, will be here to grade the Anderson herd in an efficiency testing program, which is being carried out at that ranch. During the afternoon, demonstrations of grading and general discussion on efficiency will be open to the stockmen of the county, that are interested in this program. Details will be sent out to livestockmen within the next few days.

Last Thursday, Rex Warren, Farm Crop Specialist, Oregon State College, spent the day with the county agent checking results of various weed spray jobs throughout the county. Compared were various rates of application, both 2,4-D and 2,4,5-T, in oil and in water; applied by plane and by ground sprayer. In general it was found where weeds had been sprayed while young (in the rosette stage), with at least 1 1/2 pints of 2,4-D in 10 gallons of water, the best results could be expected. There were no appreciable differences in mixtures of

this year. When in full operation the service will charge a small fee for testing soil samples sent in by farmers. The laboratory is now in the early stages of organization and will not be ready to receive samples for several months, Dr. Alban reported.

2,4-D and 2,4,5-T and 2,4-D alone. Sprays applied with ground rigs, when applied at the same growth stage, were more effective than when sprayed by plane.

One field, sprayed by helicopter, using one gallon of oil per acre as a carrier, showed relatively good control of weeds with the exception of purple mustard. There was some indication of damage to the wheat.

Checking the trial demonstration at the Bill Padberg ranch, it was found that applications of 1 1/2 pints of 2,4-D or mixtures of predominantly 2,4-D, showed the best control of weeds. Methoxone, a relatively new weed killer, shows promise of some weeds, fortunately, on the ones that are now easily controlled by 2,4-D, such as mustards. One of the poorer kills of weeds, at least to date, is in the plot dusted with 5% ester 2,4-D leaf feeding dust.

WILLOW CREEK CHEFS

Mrs. Nelson Anderson, leader, demonstrated how to make and shape bread and rolls for the Willow Creek Chefs on April 30th at the home of Jean Marie and Helen Graham. The cinnamon rolls were served as refreshments and enjoyed by all.

Present were: Sandra Lanham, Marilyn Pettyjohn, Judy Thompson, Meredith Thomson, Diane Grant, Jean Marie and Helen Graham and Carol Ann Anderson.

Mothers present were Mrs. Stephen Thompson and Mrs. James Thomson.

The next meeting will be May 15 at the home of Mrs. Nelson Anderson, leader.

Meredith Thomson, reporter.

"SEW IT'S FUN" CLOTHING CLUB II.

Making an apron that's easy to make, iron and use was the project for the 4-H clothing girls of Boardman on Wednesday, April 16. The aprons will be made of one piece of material with a heading at the top for the belt to be inserted. A 2 1/2 inch hem at the bottom completes the apron. The girls finished their pot-holders.

For the next meeting each girl was asked to answer roll call by naming an embroidery stitch

How to Grow Backyard Strawberries Told

Don't let the fact that you live in a home on a small city lot stop you from eating strawberries out of your own berry patch.

Grow them in a barrel, a terraced or a pyramid bed, writes R. Ralph Clark, Oregon State college extension horticulture specialist in a new extension circular, number 547, entitled "Strawberry Production in Small Areas," which is now ready for distribution.

Copies of the four-page mimeograph may be obtained from the county extension offices or directly from OSC. Included are plans for a space-saving barrel, terraced and pyramid strawberry beds. The circular also outlines desirable soil type, watering, fertilization, winter protection, and insect control.

Any of the three growing devices are things of beauty as well as a source of strawberries, Clark concludes.

High School Athletes Compete at John Day

Grant Union high school of John Day edged the Heppner Mustang track squad 47 to 54 in

that they have learned. Mrs. C. H. Hamilton served cocoa and oatmeal cookies.
Reporter, Barbara Andregg.

a triangular meet at John Day Saturday, May 3.

Heppner boys winning first awards were Gary Connor, pole vault; Loyd Harshman, mile run; Jerry Haguewood, javelin; Wendell Connor, broad jump. Placing second were Jim Hayes, 880-yard dash; Bud Wagner, javelin; Wendell Connor, 100-yard dash; Gary Connor, high jump and relay team consisting of W. Connor, Jensen, Parent and Wagner.

Third places were scored by Jerry Haguewood, 880-yard dash; Wendell Connor, high jump; Bud Wagner broad jump; Bill Hughes, mile run; Al Parent, 440-yard dash; Gary Connor, shot put and Roland Taylor, discus.
