Recently a friend asked "What's the best buy I have today?" The head of the nation's largest insurance companies gives an answer. "Medical coverage under automobile policy is the best buy in the Casualty insurance field today."

For a very few dollars (100 on the average policy) a car owner may have Medical Payments feature. It pays hospital, dental, even funeral bills as a result of an auto accident. The coverage applies to the CAR OWNER as well as any other person he may insure. Moreover, the coverage applies REGARDLESS whether the policyholder is responsible for the accident. And it extends for full year after the injury.

No doubt you've often thought to be able to offer to pay for medical expenses if you injured a guest riding with you. Here is your chance—and for next to nothing!

Where else these days can you get SO MUCH for SO LITTLE?

Investigate this bargain now. Phone 152.
