Keith Roundy of Kennewick, Wash., is visiting his uncle John Bryson.

### Blocks Beat Heat for Socks

With 300-pound blocks of ice serving as table and chairs, Shirley Whitlock, left, and Judy Houtz found a way to beat the July heat in the 28-degree temperature of the storage room of the new \$1,000,000 artificial ice plant of the Pacific Fruit Express at Laramie, Wyo. Their floor is also of ice blocks, a portion of the 38,000 tons on hand for the servicing of eastbound Union Pacific refrigerator car trains loaded with western fruits and vegetables. Oh yes, what are the girls knitting? Why socks for winter, of course.

million dollars in series E defense bonds—an amount equal to the corresponding period last year.

"Throughout the state a total of \$11,201,406 in E bonds was purchased," James H. Driscoll, county defense bond chairman, stated. "An additional \$2,497,152

were bought in all other series defense bonds, to bring the total sales for the first half of 1952 to \$13,698,558. The substantial purchase of small denomination series E bonds, primarily by payroll savers, reflects a healthy thrift pattern that is highly commendable and desirable for a sound

business economy." County sales in all series during the same period amounted to \$146,486. Driscoll pointed out that defense bond purchases during the past two months in Oregon and throughout the nation took a big jump to overcome the slack sales earlier in the year. "Over 150 per cent more bonds were purchased in May and June of this year, moreover, than in

1941 when the first savings bonds were issued. This is partly due to the new three per cent interest on the new E and H defense bonds," he said, "and to the growing number of Payroll savers in state and nation-wide industries."

The swastika symbol originated among the Hindus.

FARLEY PONTIAC COMPANY

# YOUR NEW GMC DEALER

OUR appointment as your local representative for GMC trucks means more than just the announcement of a new dealership to serve you.

It is a cordial invitation, regardless of the brand of trucks you operate, to come in and get acquainted with service that's friendly and efficient—service that will give you more years of profitable operation from the equipment you now own.

But even more than that, our appointment makes available to you a modern local headquarters for the fastest-growing line of trucks in America.

In our showroom you'll find stalwart products of the world's largest exclusive manufacturer of commercial vehicles. For GMC's are offered in light-, medium- and heavy-duty models—gasoline and Diesel—from 1/2 to 20 tons.

They're every inch real trucks—built for keeps!

And just as GMC means quality performance—we believe you will speak equally as highly of the facilities, parts stock and personnel we are proudly putting at your command.

The welcome mat is out—we're at your service!

"Come on in - the service is fine!"
