The EASY-DOES-IT CORNER

By Ed Dick & Peck Leathers

Corner-Post Anchor Made From Old Harrow Disk

We heard about this clever corner-post anchor (below) that will stand a lot of fence pull—prevent sagging. Thought it might interest you.

Incidentally, you can add years to the life of any fence post by dipping it in Standard Wood Preservative. It seals the pores in all types of wood touching

ground—fights the causes of wood decay.

Apply it the same as ordinary creosote to grapestakes, fenceposts, mud sills, underpinning, hop poles, etc. You'll find it pays to apply Standard Wood Preservative a foot above the ground to retard fungus and rot. Call us about it. Serving your needs promptly is our aim as local businessmen.

WHY

do the profit-minded out-of-state grocery chain store and the allied Affiliated Milk Committee try to make you believe that the substitute milk initiative will protect Oregon's Dairy Farmers and your steady milk supply...

WHEN THE TRUTH IS:

More than 80% of Oregon's Dairy Farmers (who really know the milk-business) oppose the tricky substitute initiative. They are fighting it with every hard-earned dollar they can spare, because they know it could threaten your steady supply of rich, wholesome milk.

HANS LEUTHOLD, Tillamook dairy farmer, says:

"The milk consumer in Oregon, as well as our many small dairy farmers, should be seriously concerned over the attempt of an out-of-state grocery chain to pass a substitute milk control initiative promoted by them to serve their own selfish interests. YOU are not protected under their initiative. Oregon's \$70,000,000 dairy industry, so vitally important to our state agriculture economy, is not protected, either. Your present supply of rich, sanitary, wholesome milk at present fair prices, and our ability to better our herds and sanitary equipment, IS PROTECTED under our present FAIR law. Let's keep it!"

HERE IS THE TRUTH ABOUT YOUR PRESENT MILK CONTROL LAW!

IT DOES ASSURE YOU and your family a steady supply of rich, wholesome milk at uniform, low prices the year 'round.

IT DOES AFFECT YOUR milk's sanitation and purity by giving dairy farmers a stable market and so a chance to maintain better herds and keep modernized the high-priced equipment needed.

IT DOES PREVENT YOUR milk supply from falling under control of a politically appointed one-man dictator as called for under the out-of-state promoted initiative. At present, a 7-man Board of Agriculture fairly administers the GOOD Oregon Milk Control Law to your best interests.

DON'T BE TRICKED into repealing our FAIR MILK LAW that has worked so well for 19 years.

Vote 333 X NO
