**Let's Rid Oregon of Commercialized
 Gambling!**

**WHY YOUR VOTE FOR
 326 X YES**

Will Help to Make Oregon a Better State

1. This is the Constitutional Amendment to make pari-mutuel betting on the result of dog and horse racing illegal. It is on the ballot because 35,000 voters signed petitions to put it there. Other types of gambling, such as lotteries and gambling devices, are already banned by law in Oregon. YOUR VOTE FOR 326 X YES will strengthen these laws.
2. At present police arrest operators of even a 10 cent lottery, but the state legislature permits betting on dog and horse racing. For 60 nights each summer betting on the speed of a kennel of Greyhounds at the Multnomah stadium in Portland averages more than \$250,000 per night! LETS BE CONSISTENT! If lotteries are wrong, betting on dog and horse racing is just as wrong, and should be banned. 326 X YES WILL DO IT!
3. For 20 years the operators of dog and horse racing have kept control by dividing their gambling profits with our state and county fairs. A PRACTICE THAT IS MORALLY WRONG, DOES NOT GAIN MERIT BECAUSE SOME OF ITS TAKE IS USED FOR WORTHY CAUSES. VOTE 326 X YES!
4. Our State and county fairs will not suffer. We had good fairs before we had pari-mutuel betting and many fair leaders say that expenses can be paid from operations. It will not amount to more than 58 cents per person per year! VOTE 326 X YES!
5. For every \$1.00 that goes for socially approved purposes, an additional \$27.00 (figured on the gross), goes to the gambling interests.
 Which is more important to YOU as an Oregon Voter ...

1. The moral integrity of our state, or ...
2. To be dependent on gambling revenues?

YOUR VOTE ON 326 X YES WILL RESTORE OUR MORAL INTEGRITY AS A STATE

VOTE - 326 X - YES

Confused about Milk?

**This will help you vote
 what you believe**

If you are FOR

RICHER MILK ... LOWER PRICES
 vote YES

332 YES will restore competition and remove arbitrary limits on butterfat.

FREE ENTERPRISE
 vote YES

332 YES will restore our declining dairy industry, allow it to grow with our population. Our supply of pure milk will increase.

FARM PRICE PROTECTION
 vote YES

332 YES will protect farm prices, based on cost of milk production. No longer will producers have to take what is left after retail prices have been fixed and distributors have been guaranteed their profits.

If you are AGAINST

THE MILK CONTROL LAW
 vote YES

332 YES will repeal all state controls except farmer price protection and butterfat labeling. Milk cleanliness is protected by special federal, state and city laws.

MILK DICTATORSHIP
 vote YES

332 YES will remove these powers of the milk administrator—

- to dictate which farmers shall sell milk and how much.
- to say who shall engage in the milk business and where.
- to prop up retail prices and cut down richness.

LOOK FOR

MILK PRODUCTION AND MARKETING ACT BILL—Purpose: Authorizes governor to appoint milk control administrator, an instrumentality of state, with annual salary of \$7200, vested with power to investigate supervise and regulate the production of milk for human consumption within the state. Act requires butterfat labeling of milk and licensing of milk dealers. Appropriates license fees for expense of administration. Authorizes administrator to designate marketing areas, require uniform records and accounts to be kept by producers and dealers, fix minimum milk production prices after public hearing, and require bonds of milk dealers. Appeals are provided for and penalties for violations; all existing milk control laws are repealed. Vote YES or NO

- 332 X Yes. I vote for the proposed law.
 333 No. I vote against the proposed law.

Jack Smith grumbled when he received his fire insurance policy. "I've carried that policy for years," he said to himself, "and during that time I've not had a single loss. I wonder if it is really necessary to continue."

The idea kept gnawing at Jack. Ten years and no loss. Yes, I'll drop it, he added. The next week he returned the policy—"not wanted".

Jack, however, was uneasy. It didn't comfort him much to know he hadn't had a big loss in the past. He worried about what might happen in the future.

Then it happened. Less than a month after dropping the policy, he had a large loss. It was staggering! The amount of the loss would have paid the premium on the policy for 100 years!

Sheepishly, Jack asked for the policy to be reinstated. "I've learned my lesson," he said, "and a costly one it was at that."

This unfortunately is a true incident. Don't let it HAPPEN to you.

No one can tell WHEN a loss may occur. But one can secure relief if it does. It is important to keep your insurance in force.

We can't predict the future—but we will INSURE it! Let us protect you—around the clock and the calendar.

**"I never realized
 how careful the
 Red Feather is
 with our money"**

"I'm a businessman, and I like to do things in a businesslike manner. Let me tell you why I'm backing the Red Feather."

"First of all, Red Feather is the big many-in-one drive. That saves money. And the volunteers who go out and ask for pledges—they're not paid. That saves money, too."

"And look here. Every agency in our Red Feather is double-checked

budget-wise. First, inside the agency itself. Then by the Red Feather budget committee, a group of hard-headed businessmen. They know how to cut corners and trim expenses, and still get the job done right."

"If you ask me, Red Feather is asking us to pledge to help our town and our neighbors in the most direct, most economical way we can. I'll buy that any time."

UNITED Red Feather CAMPAIGN
