## Many Enjoy Oddfellow Hallowe'en Party

Some fifty members and guests attended the Hallowe'en party Friday evening at the Oddfellows Hall for which Willows Lodge No. 66 and Sans Souci Rebekah Lodge were hosts. A potluck supper was served at 7:00 o'clock after which the one act play "A Husband for Jane" was presented under the direction of Mrs. Clarence Johnson. This was a story of three witch-making witches, Screech, Pinch and Snoop (Jeanne Dobbs, Katherine Allen and Gladys Beckett) and their life-long effort to arrange a match for an old maid, Jane Lemon (Pearl Devine) with any available male—in this instance, Ebenezer Sweet (Jesse Payne). After the play, bridge and pinocle were enjoyed. Those in charge of arrangements included Mrs. John Bergstrom, Mrs. Roy Thomas, Mrs. N. D. Bailey and Mrs. Elbert Cox, kitchen and dining room; and Mrs. Robert Dobbs, Mrs. Frank W. Baker and Mrs. Clarence Johnson, entertainment.

## Legion Auxiliary Meets Tuesday

## New Lift For House Plants

Got some tired house plants which could use a lift? If the dirt in the flower pots has become hard-packed and dry so that no amount of soaking will help, Green Gold, the new soil conditioner, is just the remedy you need. It's the new miracle chemical for conditioning soil (not a fertilizer) that changes the soil structure so that hard-packed masses become smooth, easily-worked, crumbly loam. Plants begin to thrive once again as more air, moisture, and plant food are made available to their roots as soon as the conditioner is applied. Application is quite simple. The contents of the House Plant package is mixed with one quart of hot water and stirred well. After loosening the top soil around the plant, the mixture is applied with a tablespoon, according to directions. Tested and proved at one of the nation's leading universities by one of the world's foremost soil experts, this new chemical conditioner is fast becoming the first aid treatment for house and window box plants. Many people are now working it into the soil of newly-potted plants, too, to insure better aeration and moisture conditions. It comes in powder form in two sizes—29c and the larger \$1 economy package, and can be purchased at garden supply stores or wherever you buy your seeds and plants.

## Instruction Given on Group Song Leading

Miss Jessaloe Mallalieu, Recreation Specialist from the Oregon State College, gave tips for leading group singing. She stated that it is possible for almost any person to lead group singing by using a few simple techniques. She said that it is necessary to first get the interest and cooperation by singing a short familiar song with a quick tempo. Other tips discussed and demonstrated were: announce the song, giving pitch of note on which to start, give a definite and large enough "ready" signal to be seen by everyone, and beating time is necessary to keep the group together. Miss Mallalieu also stated that leaders need to make the end of the song definite, so that, they stop singing together.

Methods of conducting games for large or small groups with and without equipment were discussed and demonstrated. Church organizations, P. T. As, Garden Clubs, Extension Units, 4-H Clubs and schools were represented at the singing and game sessions. Leaders interested in securing programs for Thanksgiving, Christmas, and other holidays may secure these through the Extension office, Heppner.
