One day I visited Matty at his store. He appeared worried when the conversation turned to the insurance on his merchandise stock.

"How can I be sure to have enough fire insurance during my peak months without buying more than I need for the slow months?" he asked.

"On a store this size, you'd be well advised to have a provisional reporting stock policy," I answered. "You report the size of your inventory once a month and the coverage fluctuates up or down with your stock. Then, at the end of the year the company audits the policy and makes a premium adjustment—either up or down depending on the amount of protection you've had."

"That's the kind I'd like," Matty said, "right now I have a flat amount of \$35,000 but some months the stock actually totals \$50,000. You can see I'd be caught badly if a fire occurred then."

"Yes," I said, "we'll write the proper stock policy for you. You save money, too, because you get the advantage of a reduced rate based on full coverage."

May we quote the rate for YOUR BUSINESS too? We can help you find the best stock policy at the lowest cost!

A stork shower was given in honor of Mrs. Joe Garsland at her home Monday afternoon. She received many lovely gifts. Mrs. Corliss McLeod and Mrs. David McLeod were the hostesses.

How to make good telephone service even better.

telephone tips for talkative teen-agers

Time has a way of slipping by when the youngsters are visiting their friends by telephone. If you have a problem like this around your house, why not tip off the youngsters to the fact that the calls they get are often more important than those they make? And, of course, no one can call them . . . or you . . . as long as they have the line tied up with lengthy conversations. That's why, when they remember to leave a few minutes between calls, they won't run the risk of missing an important date because the boy who was calling could get nothing but a busy signal.

you'll always have numbers handy

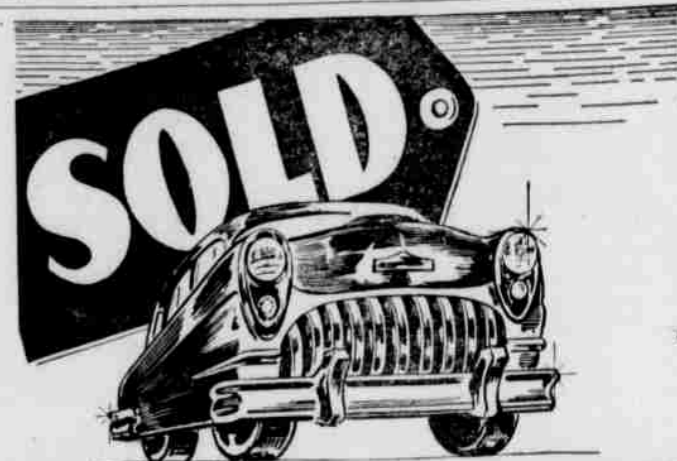

when you need them, if you'll make a list of the numbers you call most often. And if you'd like to keep numbers in a handy, indexed booklet, just call, send a postcard, or drop in to your Pacific Telephone business office. We'll be glad to give you a free personal number booklet.
