Across The Counter
By Frank & Van

"Jack, have you ever thought of the difficulties your family might face if your house burned down, or was severely damaged?"

"I guess I'd have to try and find temporary quarters somewhere," he answered. "Probably have to neglect my job and search frantically because we've got three lively kids and most apartment owners wouldn't want them."

"Exactly, but first you'd probably have to move into a hotel or motel. Naturally, you'd have to buy all your meals for your whole family. And send out ALL your laundry. It would hike your living costs sky high."

"It would be plenty rough," Jack replied, "and we're having a tough enough time trying to stretch my income now. Our budget would be sunk."

"And, of course, you'd have to store your furniture, and keep up the taxes and payments on your home."

Jack pondered. "There out to be insurance that would cover those Additional Living Expenses. It would cost us \$250 EXTRA every month, and it would probably be 3 or 4 months before we were back in our home."

"Fortunately," I answered "such insurance exists. It costs very little too since it's written at the same low rates that apply to your house. We'll add that protection to your policy."

A Day of Thanksgiving

Thanksgiving is more than turkey. Let us remember the bountiful life we enjoy is just part of the manifold blessings for which we thank the Lord.

Make this a family time—when we gather to give our thanks for the richness of our life and for our Freedom. We thank Him who has given us so much.
