**ONE LITTER - 2 1/2 TONS**

**2 1/2 TONS OF PORK FROM ONE PIG IN 6 MONTHS**—This litter of 18 Farmer's Hybrid pigs recently set a new world record for six months weight—a total of 4,992 pounds. Owned by Lawrence Meyer of Spring Grove, Minn. (left) the champion litter was raised on Terralac, synthetic sow's milk, and terramycin-fortified dry feed. Prof. H. G. Zavoral of the University of Minnesota (far right) was on hand to make the 180-day weight official. The heaviest pig weighed 342 pounds, the lightest 226 pounds. This is the first year synthetic milk has been available. Meyer says the pigs might have been largely lost by starvation if farrowed a year ago.

From where I sit... by Joe Marsh

**They'll Do It Every Time**

You know where Hammy Jackson lives—on that small dead-end street off Maple Avenue near the library? Well, about a month ago, the town finally put up a sign on the corner there saying: "No thoroughfare... Dead End."

Yesterday Hammy dropped by to see us. "Can't understand it," he says. "Hardly anybody drove down our street before—but, now, since they put that sign up, there's been more cars than ever turning around in my driveway."

From where I sit, these people who bother Hammy on his one-

way street are the same as those who automatically ignore a Wet Paint sign and touch their finger on a freshly painted surface. But you can't change human nature. People like to find out for themselves—and then make their own decisions.

That's why I say "live and let live." You can drink your butter-milk, but let me have my glass of beer when I choose. And let's not feel we're obliged to "point the way" for the other fellow.

Joe Marsh
