Sheep Breeders Plan Annual Meet Dec. 16

Recent research findings in sheep breeding and diseases will highlight the annual meeting of the Oregon Purebred Sheep Breeders association at Corvallis December 16. The meeting will start at 1:30 p. m. at the Benton hotel.

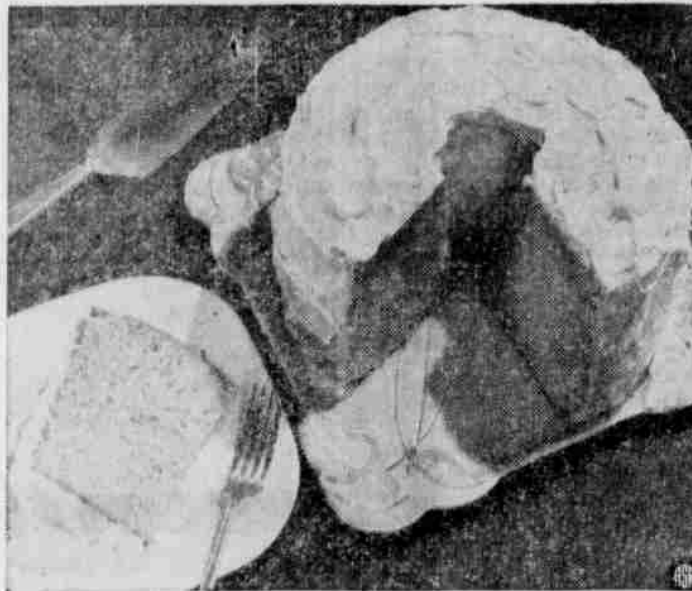

The director of the Armour and company livestock bureau, Col. E. N. Wentworth, will discuss sheep research work. A forum on sheep diseases will be conducted by three members from the OSC department of veterinary medicine, Dr. J. N. Shaw, Dr. L. R. Vawter and Dr. O. H. Muth.
A business meeting and banquet will conclude the annual meeting.

The 1953 Ford Crestline Sunliner with its smart open car styling is available in 12 new colors ranging from Coral Flame Red to Raven Black. With its "Breezeaway" top up, the Sunliner provides the weather-tight comfort of a sedan. Two-tone leather and vinyl seats blend with inside paneling and harmonize with outside colors.

A New, Light Spice Cake Delight

Call it tradition, or what you will—this is the time of year we expect to enjoy the delights of cakes fragrant with spices. High on the list of desserts to make now is feather-light, regal-looking Frost Spice Cake that generously yields 16 to 20 servings. Make it with a vacuum-packed oil that blends quickly with other ingredients because it is superfined. Frost Spice Cake, with its easy-to-make cream cheese frosting, stays lusciously moist. This icing has a burnt-sugar flavor, though either orange or lemon are approved with spice cake. The cake keeps beautifully, and even with the cream cheese frosting does not need to be refrigerated.

Frost Spice Cake

- | | |
|------------------------------|-------------------------------|
| 2 1/4 cups sifted cake flour | 6 eggs, separated |
| 1 1/2 cups sugar | 2 tablespoons molasses |
| 1 tablespoon baking powder | 1/2 cup cold water |
| 1 teaspoon salt | 1 teaspoon grated orange rind |
| 1 teaspoon cinnamon | 2 teaspoons orange juice |
| 1/2 teaspoon cloves | 1/2 teaspoon cream of tartar |
| 1/2 teaspoon nutmeg | |
| 1/2 cup salad oil | |

Sift the flour, sugar, baking powder, salt, cinnamon, cloves, and nutmeg together into a bowl. Make a well and add in order, the oil, egg yolks, molasses, water, orange rind and juice. Beat with a spoon until smooth. Add the cream of tartar to the egg whites and beat until very, very stiff. Pour the egg yolk mixture gradually over the whipped egg whites, carefully folding with a rubber scraper just until blended. Do not stir. Pour immediately into an ungreased 10 x 4 inch tube pan. Bake in a moderate oven, 325°, for 70 minutes or until the top springs back when lightly touched.

After removing the cake from the oven, turn the pan upside down, placing the tube part over the neck of a small funnel. When cold, loosen the sides with a spatula, remove the cake from the pan.

Caramel Cream Cheese Frosting

1 8-ounce package cream cheese
1/4 cup caramel syrup
Blend the cream cheese and the syrup. Add the sugar gradually, blending it in well.
To make caramel syrup heat 1 cup granulated sugar in a frying pan over low heat, stirring constantly. Heat until melted to a golden brown syrup. Add 1/2 cup hot water and stir until smooth. Cool.

Simplification of Tax Law Favored

OREGON STATE COLLEGE—The major needs in the simplification and improvement of Oregon's tax structure are for emergency tax measure provisions and a change in the personal tax law to make funds available as general revenue, tax experts attending the recent State Tax conference at Oregon State College report.

The tax experts—members of the legislative interim tax and fiscal revision committee—insist that Oregon's tax system is superior to that of neighboring states but does need some remodeling. They are not advocating a state sales tax at this time.

A bill calling for a change in the personal income tax law to make funds available for general sources will be presented to the 1953 legislature they said.

Tips Given on Keeping Christmas Trees Fresh

Christmas tree hints on how to keep your tree fresh and beautiful were given out by Lynn F. Cronemiller, assistant state forester.

"If you live in the city", the forester said, "chances are that your Christmas tree has been cut a week or two earlier and should receive care immediately to prevent discoloration and falling of the needles. Christmas trees are like any other plants and respond when the base is placed in water and kept in a cool place."

Cronemiller outlined the procedure to keep the Christmas tree in first class shape until ready for use:

- (1) Saw a slanting fresh cut immediately above the original cut. This will permit tree to absorb water.
- (2) Place the tree base in fresh water. A bucket or deep pan will do.
- (3) Keep tree outside in a cool place until ready to bring into the house.

After bringing the tree in the house, again place the trunk in a bucket or pan of water. This moisture will continue to keep the tree fresh and green and will also render it less susceptible to fire. Cronemiller said that forestry officials had made many tests with chemicals but none were as satisfactory as plain water as a preservative. As long as the tree trunk is kept in water, the needles will remain firm and green for a considerable period.

Cronemiller stated that weights could be placed in the bucket to keep the tree erect. Also, stands, with water devices for holding trees, may be purchased at local stores and Christmas tree lots.

Duvalls Honored With Dinner Party

Mr. and Mrs. Vivian White entertained recently with a dinner honoring Mr. and Mrs. Harry Duvall. The occasion marked the anniversary of the couple as well as Mr. Duvall's birthday.

Other guests attending were Mr. and Mrs. Niel White of Pilot Rock.

SAND HOLLOW-BUTTERCREEK LIVESTOCK CLUB

The Sand Hollow-Butter Creek Livestock club held their second meeting Dec. 7 at the John Graves home.

Meeting was called to order by president Dean Graves. Roll was called. Nels Anderson explained the literature on our projects, after this we went to the barn and looked at Dean's steers.

Mrs. Graves served refreshments. The next meeting will be at the George Currin ranch on

Across The Counter

By Frank & Van

When you were a youngster you probably liked to play "guessing" games. It was fun and there were no dire consequences if you guessed wrong.

Not so with insurance. For example, consider the insurance on your personal property and household goods. We can—and do—write insurance against any specific hazard that you care to name, such as fire, vandalism, robbery, and so on. People guess at what might cause a loss and then insure against it.

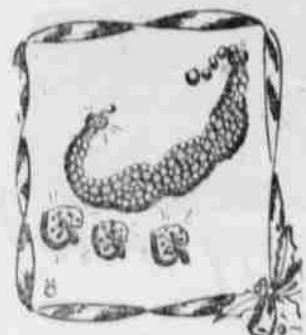

The important thing to remember, though, is not that a fire, or a burglar might cause a loss, but that your property may be lost or destroyed by any number of things. This suggests a broad form of protection.

We suggest that you forget about trying to guess in advance just what peril may cause a loss, and insure against nearly all loss.

The Personal Property Floater covers practically all your personal property against practically all risks, anywhere in the world. Included are all common perils plus "disappearance", spillage, floods, etc.
For the best protection quit playing a guessing game. Ask us to estimate the cost of a personal Property Floater. You are given credit for existing insurance—even if with other agencies. So call TODAY.
