

Eisenhower Urges Nation Support March of Dimes

President-elect Eisenhower meets 1953 March of Dimes Poster Girls Pamela (left) and Patricia O'Neil, of Raleigh, N. C.

NEW YORK CITY—President-elect Dwight D. Eisenhower called on the American public to support the 1953 March of Dimes being conducted throughout the nation during all of January.

He joined in the annual appeal after meeting the two Raleigh, N.C., sisters who are pictured on the 1953 March of Dimes poster. They are Patricia O'Neil, five-year-old Pamela O'Neil, both of whom were stricken with polio but now are recovered completely.

"It's hard to believe that these are the same little girls whose pictures are on the March of Dimes poster," he noted. "Now

they're completely recovered from polio, thanks to the generosity of the American people."

He urged all Americans "to help the others like them by joining the March of Dimes."

Later, he joined the poster girls in making a short film which is being shown by television stations throughout the nation.

This year's March of Dimes follows the all-time record polio epidemic of 1952 in which more than 55,000 were stricken. At the beginning of 1953, there were 58,000 polio victims of former years still undergoing treatment, with financial help from local March of Dimes chapters.

Defense Bond Goal Increased 70 Percent

The U. S. Treasury department's accelerated defense bond program that calls for purchases of over \$5 1/2 billion by the American people during 1953 got quietly under way this week, after a meeting of Pacific Northwest bankers and key defense bond volunteers.

Jeff Carter, county defense bond chairman, announced a state quota of \$46 million 300 thousand in all series defense bonds—a 70 per cent increase over last year's sales. County quota will be announced shortly.

"This is the first time in the history of bond selling," Carter said, "that an annual national, state, and county defense bond quota has been set."

The stepped up day-to-day promotion calls for an increase of 11,000 employees on payroll savings plans in industries and more substantial investments in series H, J, and K bonds by both small and large investors.

He stated that the \$16 million 300 thousand state goal is the minimum objective. "This figure reflects the estimated total of 10 and 12-year defense bonds that will mature during 1953, plus cur-

rent redemptions of all series defense bonds.

Lexington Grange Hall
Tuesday, Feb. 10, 11:00 A. M.

Free Dinner At Noon

How to save starting time on gasoline and diesel engines

To make sure your engines will start on the first few turns in the coldest weather, give them a shot of Chevron Starting Fluid as you step on the starter. It has started diesels in 10 seconds at 30° below zero. Ask us about low-cost equipment that you can install on engines to make the use of Chevron Starting Fluid easier.

Avoid starting delays from ice-clogged fuel lines, too, by putting a little Chevron Ban-Ice Fluid in your fuel. It prevents freezing of any moisture that may get into storage tanks or lines.

Let us tell you about Chevron Starting Fluid and Chevron Ban-Ice Fluid today.

1953 Chevrolet Advance-Design Trucks deliver more value!

4 powerful reasons why you get more of what you want...

- more engine power!** 108-h.p. Loadmaster engine—standard on 5000 and 6000 Series heavy-duty and forward-control models, optional on 4000 Series heavy-duty trucks.
- more staying power!** Heavier, stronger, more durable frames increase rigidity, add to ruggedness and stamina of 1953 Chevrolet trucks.
- more braking power!** Trucks up to 4000 Series heavy-duty models have "Torque-Action" brakes. Series 4000 and above use "Torque-Action" brakes in front, "Twin-Action" in rear.
- more economy!** New stamina plus extra gasoline economy in heavy-duty models with Loadmaster engine, reduces hauling costs per ton-mile.
