Dual-Range Hydra-Matic Drive has one setting for traffic — another for gas-saving open going. Hydra-Matic takes over all gearshifting effort AND judgment.

An ultramodern engine brings the tremendous lift of 8.0-1 compression with regular gasoline. And with even more power delivered to the wheels, there's more mileage squeezed from the gas!

There's a new electrical system — greater stopping power — heavier construction.

See for yourself how these all modern GMC's are "built like the big ones" — those brawny GMC's of 26,000 GVW and up that lead all heavy-duty trucks in sales.
