From where I sit... by Joe Marsh

"Biff" Falls for His Own Story

Biff Morgan's four-year-old daughter Rusty is something of a night owl. Stays awake way past her bedtime.

Every night Mrs. Morgan complained about how hard it was to get Rusty to go to sleep. Finally Biff decided to handle the situation. "Anyone can get a kid to sleep — takes a little patience! Here, hand me her storybook."

He grabs the book and goes into Rusty's room. About an hour later Rusty comes padding out in pajamas and hands her mother the book. "Read it quietly," she

whispers, "so we don't wake Daddy."

From where I sit, Biff won't be so quick to be a "child-care specialist" the next time. If we could just resist being such "know it alls," our neighbors would be better off. Take those who would deny me a glass of beer with my supper — well, I might not care for the buttermilk they like. We all ought to realize that we all have different abilities and different preferences, too.

4 powerful reasons why you get more of what you want...

1953 Chevrolet Advance-Design Trucks do more work for less money!

more engine power!
Advanced Loadmaster engine—standard equipment on 5000 and 6000 Series heavy-duty and forward-control models, optional on 4000 Series heavy-duty trucks.

more braking power!
In 1953, all Chevrolet trucks up to 4000 Series heavy-duty models have "Torque-Action" brakes. Series 4000 and above use extra-large "Torque-Action" brakes in front, "Twin-Action" type in rear.

more staying power!
Now, heavier, stronger, more durable frames increase rigidity, add to ruggedness and give more stamina than ever to all 1953 Chevrolet trucks.

more economy!
The new stamina of Chevrolet trucks, plus extra gasoline economy in heavy-duty models with improved Loadmaster engine, reduces hauling costs per ton-mile.
