Unfortunately, many people have failed to recover sums to which they were entitled because they never dreamed their policies covered certain losses. Are you one of them?

For example, a car was parked downtown. The wind carried paint spray being applied to a building. The car was "speckled." The car owner was amazed to learn that his Comprehensive coverage would pay for this damage to the finish.

Or, another. Most policies on household furnishings provide for coverage up to 10% of the policy on these effects away from your home anywhere in the U. S. Thus you might recover if your wig is blown off in a windstorm, or your suitcase is burned up in a hotel fire.

Also, extended coverage on your house policy gives you the right to recover if a delivery truck takes off a corner of your garage.

Many more examples could be cited. Your best bet is to get your policies fully explained. Consult us freely if in doubt. We are glad to point out ways for you to get the most benefit possible for your insurance.

Our sincere goal is to be of Service to YOU.
