There is one fact that man likes to ignore but the churches ever seek to teach, is man's responsibility to God his Creator. It is well expressed in the words of Adolphe Monod:

"There is no portion of our time that is our time; there is no portion of money that is our money and rest is God's money. It is all His, he made it all, gives it all, and He has simply trusted it to us for His service. A servant has two purses, the Master's and his own, but we have only one."

"I don't think I need a robbery policy on my home," Jim said, "it doesn't seem likely that I'd ever be robbed."

"Perhaps it doesn't at first, Jim," I replied, "but do you know what the actual statistics are?"

"No," he replied. "The chances of your home being robbed are SIX times greater than the chance of its catching FIRE. And yet you'd not think of being without fire insurance."

Jim nodded. "Maybe I would be interested. I was just reading today that burglaries are on the increase. What does it cover?"

"A Residence and Outside Theft Policy offers sweeping coverage. It protects everything in your home. Your cash, jewelry, silverware, sports equipment. Well, just all the contents. Not only at your house, but also if you are traveling or at a summer home. It even compensates you for damage done by intruders or vandals to your premises and furnishings."

"Sounds good," Jim said with a smile.

"Yes," I answered. "It's a sensible policy. A small investment—but big protection. And best of all it will bring peace of mind."

Chip Pulls a "Pip"

From where I sit . . . by Joe Marsh

Chip Hanson is a clever commercial artist. Beside doing cartoons on our paper, he picks up "free lance" drawing jobs. Right now he's whipping up posters for the Safety Campaign. They all have headlines like "PLAY IT SAFE! . . . OF, 'A LIVE WIRE CAN START A FIRE!'"

Chip looked a bit sheepish yesterday. Didn't want to tell me why. Finally he blurted out, "I feel like a dope. Here I am on this safety program and the fire inspectors tell me my own studio's a fire trap. I've been storing paint there for years . . ."

From where I sit, what happened to Chip could happen to anyone. He was just too busy informing everyone else about safety — not realizing his safety was threatened. Like those who fret about their neighbors — whether they can afford a new house, whether they should have coffee or a glass of beer with lunch — Chip simply forgot to "draw" some obvious conclusions about himself!
