

High School Again To Have Baseball

By Kenneth Easter

After a lapse of six years, Heppner high school is going to field a baseball team, it was announced this week by coach Steve Trukositz. Approximately 32 boys are planning on turning out for the sport.

Local fans are warned not to expect too much this year, the coach stated, since most of the boys have never played any intramural baseball before. Trukositz stated that most of this season will be used to teach fundamentals, with the possibility that five or six games may be scheduled with other schools. The schedule has not yet been arranged, however.

Mustang Basketball Team Honored At Saturday Breakfast

The parents of the Heppner high school basketball team honored the boys and their coach, Steve Trukositz Saturday morning with a hot cakes and ham breakfast served at the high school cafeteria. Master of ceremonies for the event was Leslie Grant, county school superintendent.

Guests of honor at the breakfast, besides the boys, were Mr. and Mrs. Ben Anderson, avid Mustang fans who attended every game the team played, except for one. They followed the squad to both the district playoffs at The Dalles and to Salem for the state tournament.

Also present, in addition to the parents, were Mr. and Mrs. Robert Penland from the Gazette Times.

Two Mustangs Place In Milton-Freewater Carnival of Speed

By Kenneth Easter

The Heppner high school track squad was the only B school to place in the annual Carnival of Speed held last weekend at Milton-Freewater. Their position was gained through two third place spots won by Bud Harshman in the mile and Wendell Connor in the broadjump.

Harshman ran the mile in 4:59, the fastest time for Heppner since records have been kept.

There were nearly 30 entries in every event and none of the Mustangs placed lower than eighth. Others participating were Jim Green, Jim Hayes, Jerry Hague, Roland Taylor and Jack Sumner.

Saturday the squad travels to Condon to participate in the annual "Condon Gallops" invitational meet.

NEW OFFICERS NAMED BY HUNTERS AND ANGLERS; FISH PLANTING DUE

Dr. L. D. Tibbles began another year's term as president of the Morrow County Hunters and Anglers club Monday, and Carl McDaniel was chosen vice president and Mrs. Paul C. Brown, secretary-treasurer. Both Dr. Tibbles and Mrs. Brown are beginning their fourth year as officers.

The group was told that a letter from the state game commission assured anglers that Morrow county would again receive its share of planted trout for major streams. The letter stated that fish would be graded and that a uniform economical size would be available. A slight increase in this year's planting is planned.

Bill Labhart volunteered to post signs on the youngster's fishing area above Heppner, and as last year the section will be restricted to fishermen under 14 years of age. Special plantings are planned.

Oliver Creswick was named committee chairman for the Cubs. George Terrell was selected secretary-treasurer and J. Palmer Sorlien, institutional representative. The pack is sponsored by the Parent-Teachers.

As den mothers for the six established dens are Mrs. W. O. George, Mrs. Kenneth Keeling, Mrs. Terrell, Mrs. Marvin Smith, Mrs. Lloyd Burkenbine and Mrs. Creswick. Assistant den mothers who have agreed to serve are Mrs. Harvey Wilhite, Mrs. Herman Green, Mrs. Robert Penland, Mrs. L. D. Tibbles, Mrs. William Cox and Mrs. Merritt Gray.

Six Cub Scout Dens Start First Meetings

The first meetings of the newly organized Cub Scout organization are scheduled for this Thursday, with six dens ready and one more being planned. The organization was completed last week at a den mothers training meeting held at the Christian church.

building program approved by the Board that I can no longer serve as a member of that Board.

"I feel that the desires of the people were ignored in the decision of the Board regarding the site. It was the recommendation of the Building Committee that the adjacent site be used. A poll of this committee last week indicated that they were still of the same opinion. A poll of 173 voters of this district in January indicated that over 80% were in favor of an adjacent site. A majority of the teachers favor an adjacent site.

"I feel that the site chosen by the Board is a mistake for the following reasons:

1. The extra cost involved with duplication of services necessary and the additional cost of operation, supervision, and the maintenance of these departments represents figures in the thousands of dollars. The installation of a hot lunch program alone will cost a minimum of \$15,000 and perhaps add \$1000 per year to the operational costs.
2. The direction of growth of the community would indicate that the building should be located in any other part of town.
3. The center of population is not being considered.
4. The site is so far below recommended standards that any expansion program on that property would be almost entirely out of the question. The property will provide approximately two acres of playground against a recommended five acres for a school of under three hundred students."

Architects Named

Other action taken by the board at its Monday night meeting included a motion to authorize the group's attorney to negotiate a contract with the firm of Freeman, Hayslip and Tufts, Portland architects, and that they be instructed to draw up preliminary plans for a 10 room grade school building, sufficient to care for the first six grades, to be built on the Cason site. As soon as these plans can be prepared and an estimate of the cost obtained, the board indicated it will call for a special bond election to provide funds for the project.

Until such figures are available, the board cannot give much indication of its overall plan for the entire school system which, in the past, has included remodeling of the present school building into a high school and the construction of a new gymnasium. Board members stated that they could not yet tell whether they would ask for authorization of the entire project at one time, or whether they would take it by sections. Cost estimates are expected to influence this decision.
