Personal instruction is the first step in Janet Gray's thorough on-the-job training as an operator.

JANET GRAY—NEW "VOICE WITH A SMILE"

Like many other young graduates, she'll soon be stepping into her telephone future

Janet Gray might be any of hundreds of young women—from high schools, colleges and commercial schools—who will start telephone careers in the coming weeks. For Janet and her new colleagues, it's a big event. They'll have many interesting types of jobs to choose from, they'll be paid full salaries while they learn their jobs. And they can count on frequent raises. For Janet, the opportunities to advance are excellent. Because women are important in our business...many hold management jobs.

Many young men, too, will be starting telephone careers in the next few months. Their skill and experience will grow through training and actual work on different telephone jobs. And, when qualified, they'll be eligible for promotion to more responsible positions. For it's tradition in our business to choose tomorrow's telephone executives from among the young men starting their telephone careers now.

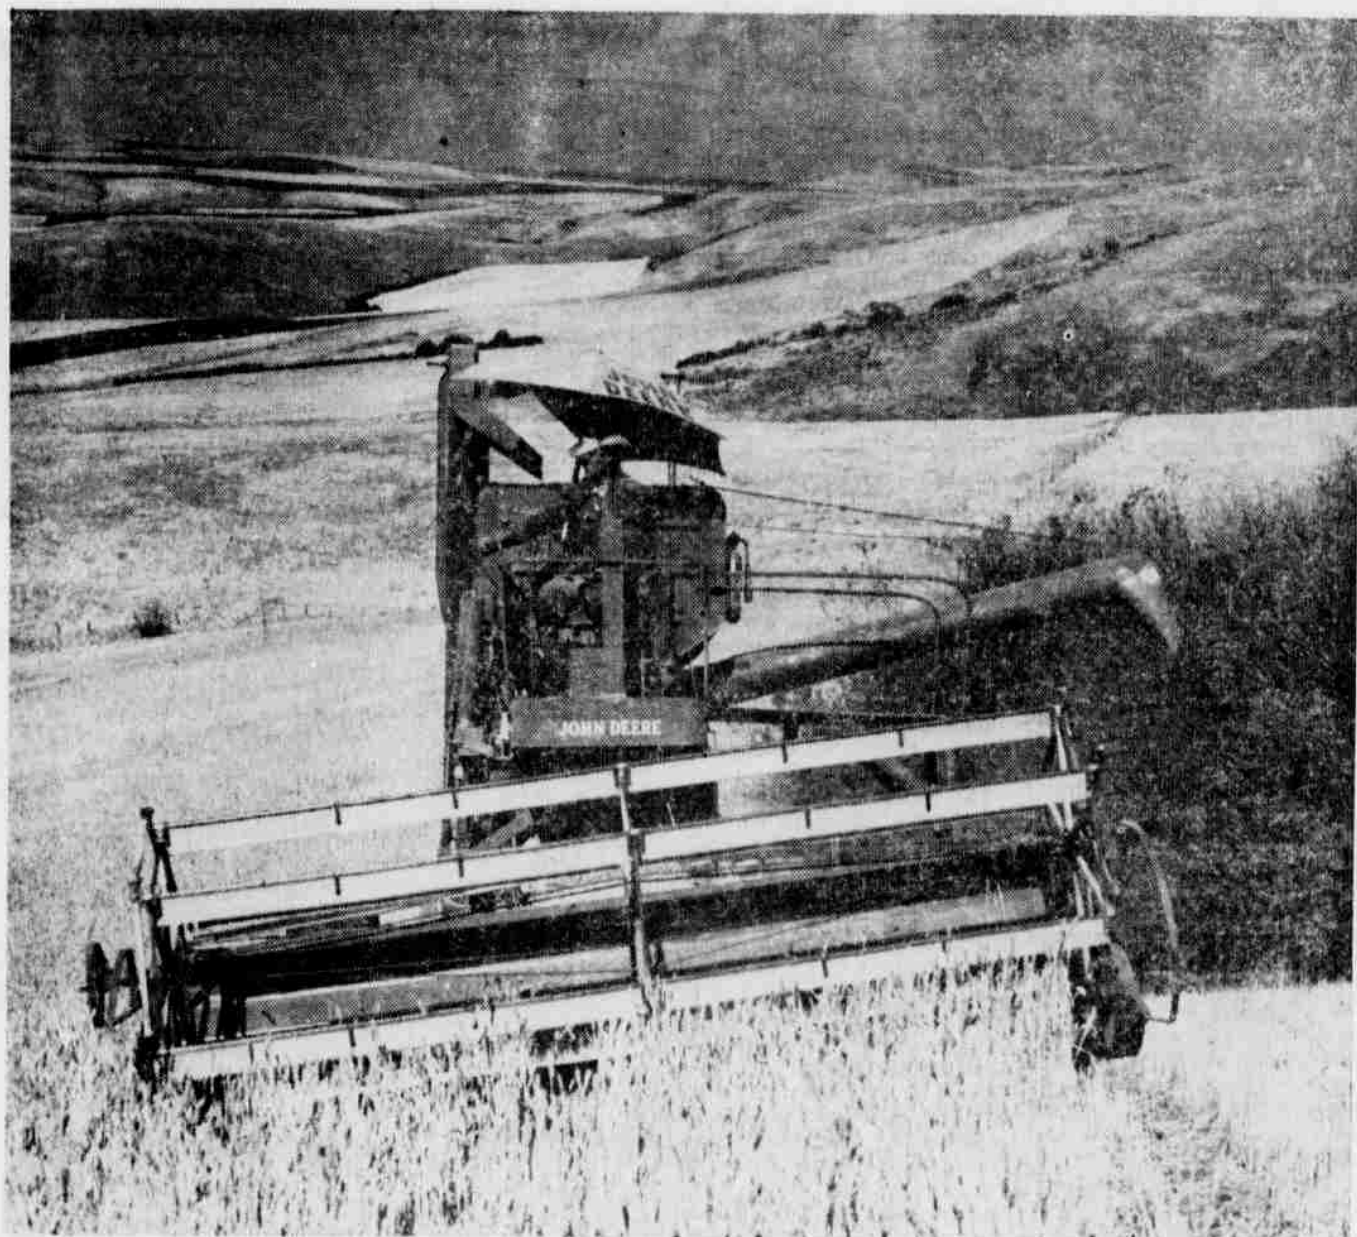

Pacific Telephone

Thousands of telephone people promoted last year

Last year, several thousand telephone men and women here in the Pacific West were promoted to better, more responsible jobs. Making sure we always have a well-trained force of men and women on the job is one more way we insure good telephone service for you.

"I CAN CUT STEEPER GROUND THAN EVER BEFORE"

Lyle Ledbetter farming near Cayuse has lots of steep ground on the foothills of the Blue Mountains. Lyle has two 55s, and is cutting ground he couldn't cut with his old pull machine. Lyle says, "They're the best all around combine I have ever owned." Some of his reasons are:

1. Quick adaptability for harvesting all combineable crops.
2. High, roomy operator's platform puts operator up out of dust and dirt - away from heat and fumes of the motor.
3. Hydraulic selective ground speed control permits working at any combining speed from a mere crawl on up. A top transport speed of over 10 miles per hour.
4. Engine and grain tank are on top of the combine - you get equalized load on the wheels for best traction and stability - easier steering and servicing.
5. Double ram hydraulic lift instantly raises and lowers platform.
6. Big-capacity, easily adjustable rasp-bar cylinder and concave grate thresh clean.
7. Sealed bearings that need lubrication only once a season.
8. Sold and Serviced by a Farm Machinery Company with trained Farm Machinery Mechanics and Parts Men, with an entire organization geared to your Farm Machinery needs.

The 55 is available with or without the new improved leveler - Come in and see it.
