"I'LL SAY WE'RE HAPPY WITH CAT EQUIPMENT AND WITH EMPIRE SERVICE"

SAY THE HOLADY BROS. LOGGING CONTRACTORS, UKIAH, OREGON.

TULL HOLADY — BUTCH HOLADY — BILL HOLADY

WE LIKE 'EM BECAUSE THEY MAKE US MONEY—AND KEEP ON MAKING MONEY—DOWN TIME IS PRACTICALLY NONE—AND THAT'S IMPORTANT.

The DW10 and 10 scraper spreads rock on Holady's road faster than 5 dump trucks -- and at much less cost. It doubles as a snow plow or even a water hauler. The Holadys also have a D8 Cat tractor, a D111 Cat electric set to supply year around power for their homes and shop, and even a D13000 Cat engine to power their big log loader.

The Cat "12" Motor Grader is a real tool for the logger. We make roads, maintain them, plow snow, push trucks, .. and all with the same ease we drive a car. The power of the No. 12 is more than enough to do any job possible with a grader.

The real standby of the woods -- one we can always depend on to make us money -- is the Cat D7 diesel tractor. We have three of them and skid an average of 40,000 board feet of timber a day with each one. We use them on grades up to 60%. Operating and maintenance costs are below anything we have ever seen or heard of .. and they are always ready to go.

FOR HARD USE AND GOOD SERVICE YOU CAN ALWAYS DEPEND ON CATERPILLAR AND

I'd say CAT equipment stands up better under the hard, punishing work of the logger. It'll stand up better on the farm, too. That makes sense.  
 Come in and talk over your power needs with your Caterpillar dealer.
