By Echo Palmateer in readiness for the fall opening one public schools will be soon according to Chester L.

**How to reach the phone before it stops ringing**

Rrrringg—there goes the phone. And before you can get to it from another part of the house, it stops ringing. But—with a handy extension telephone, you can take calls anywhere in the house! This convenience costs just a few pennies a day. And extensions are now available everywhere because they require no outside cables, wires, or central office facilities. For complete details about a new extension telephone for your home... call your Pacific Telephone business office.

**in an emergency...**

Your party-line neighbor may cut in on your telephone conversation and ask you to release the line. He'll surely appreciate it if you allow him to use the phone. And you may need the same courtesy in an emergency of your own.
