**80 years of Banking Service**

From one banking office in 1865 to 49 statewide branches and 15 affiliated banks with 18 offices in 1953... this tells the story of the First National Bank of Portland. How has this growth been achieved? The answer, we feel, is in our philosophy so aptly expressed in our slogan "Let's Build Oregon Together".

But our growth is only incidental to that of the state we serve. With both First National and the State of Oregon, the years gone by are only the beginning. Today we look to a future rich in promise for all Oregonians. And today, as yesterday, Building Oregon is our ideal of banking service.

### How to simplify the job of painting your barns

You can save all the work of mixing colors if you use Standard Shingle Stain to coat barns or any other unpainted exterior wood surfaces, such as fences and lattice work. It comes, ready to use, in three colors, red, brown and green.

Standard Shingle Stain penetrates, seals the wood pores against dampness and stops cracking and warping. Unlike heavier paints, it will not form ridges on shingle butts to retard water runoff.

Apply Standard Shingle Stain with a brush or by spraying. New shingles can be dipped. Depending on dryness of wood, 1 gallon covers 90 to 125 square feet.
