

The Garden Club Plans September Flower Show

By Echo Palmateer

The Garden club met at the home of Mrs. Walter Doby on Sunday, Sept. 9 with Mrs. Fan-Griffith and Mrs. Echo Palmer as co-hostesses. The club plans for a flower show to be held Sept. 27 in the new school auditorium 2 to 5 p. m. Entries from 8 to 11 a. m.

Mrs. Roland Bergstrom is the general chairman and she chose following heads for her committees: Mrs. Wm. Rawlins, judging and clean-up; Mrs. Fan-Griffith and Mrs. Edith Nicholson, entries; Mrs. Walter Doby, publicity; Mrs. O. L. Lundell, publicity; and Mrs. Carl Bergstrom, arrangements. Autumn Glory is the theme of the show.

At the meeting, Mrs. O. L. Lundell gave an article on the care of lawns. The chief points were: raking and feeding, keeping the lawn mowed, and filling in the low spots. The making of a compost was discussed. The club decided to plant some grass seed in city park. The book, *Lawn Care* by Scott was given to the public library. Melvin Martin gave \$10 in appreciation for the work he has done in the park.

Ernest Heliker and Mrs. Sam Eb displayed the ribbons they won at the Morrow county fair. Mrs. Roland Bergstrom received door prizes.

Research Brings Comfort to Travelers

This sleepy little tot will rest as comfortably while traveling as she would in her own trundle bed—thanks to modern research.

With a view to increasing the comfort of travelers, 20 years of exhaustive research went into the development of the spring and foam rubber mattress that is used aboard sleeping cars today.

All during that time, engineers of The Pullman Company checked and rechecked the component parts of the modern mattress, including spring construction, fabric coverings and various types of rubber.

From the standpoint of comfort, there is no comparison between the mattress of 1933 and the one of yesterday. In 1865, when George M. Pullman introduced the sleeping car, the finest mattresses consisted of South American black horsehair covered with feather and hair-tight cotton sheeting. These mattresses were hard, however, and passengers often criticized them. In sharp contrast, today's mattress, designed for comfort, consists of nearly 500 separate springs, each encased in a muslin pocket, with a foam rubber topping one and one-quarter inches thick.

To make certain that they conform to comfort standards, the 175,000 mattresses that are in service in 5,500 sleeping cars are inspected regularly. This is done either by trained inspectors or through laboratory tests of the parts that go into a mattress.

Furthermore, Pullman is constantly endeavoring to improve the quality of its mattresses. Each new development that is submitted to the company by manufacturers is investigated thoroughly.

Because of the far-reaching developments in mattress construction, travelers now can enjoy the same sleeping comforts of home.

Mr. and Mrs. Walter Doby returned home from Portland on Sunday. Their daughters, Mrs. Tad Hardesty and sons of Roseburg came home with them.

Mr. and Mrs. Allen Hoak, son of Bremerton, Wash., was a visitor here last week. He is a grandson of Fred Ely. They attended the Round-Up.

The Topic club opened their first meeting of the season on Thursday, Sept. 10 at the home of Mrs. Mabel Cotter with Mrs. E. R. Lundell and Mrs. Milton Morgan as co-hostesses. The subject of the meeting was on South America. Mrs. Cotter told of the city, La Paz, where her niece, Thersa Cotter, teaches at the

American-English College. Mrs. Lundell gave an article, Brazil, Land of Minerals, and Mrs. Morgan an article, A Tour down the Amazon.

At the Maranatha club meeting at the home of Mrs. Gary Tullis Wednesday Sept. 9, plans were made for their dinner and bazaar to be held Nov. 14 at the Grange hall 6 to 8 p. m. Refreshments were served after the meeting by Mrs. Tullis and Mrs. Clell Rea. Mrs. Wallace Matthews and Mrs. Claude Riley received the door prizes.

Cream Whips Main Street Traffic

Big traffic jam in front of the office last week. Thought everybody in the county was coming in to buy *The Clarion*, but they weren't.

Seems a 5-gallon can fell off Whitey Fisher's truck, spilling cream all over the street. Our cop on duty, Tiny Fields, halted traffic so Whitey could pick up the can. Tiny was about to wave the cars on when a kitten ran out and started lapping up the cream.

Well, traffic piled up, but Tiny paid no heed. Light changed green three times. After the kitten had enough, Tiny waved the traffic through.

From where I sit, this was just a "Tiny" demonstration of the way people in our town are. They're usually pretty considerate and tolerant. If one of our neighbors prefers a good glass of beer to his friend's coffee at dinnertime, it's just each to his own taste and everything's "smooth as cream" between them.

Come in and see... value check... and test drive a Ford today!

No doubt about it... Ford's the one fine car in the low-price field!

Feature after feature... part after part...
 Ford is as fine as the finest...
 yet it's priced with the lowest.

No car ever built has won such enthusiastic and growing preference as the '53 Ford... and no wonder. For no other car with such a wealth of fine-car features costs so little as Ford.

Yes, Ford, with all its fine-car quality, is offered at a price that's easy to pay.

You can have a Ford with a V-8 engine—the same type of engine that powers America's most expensive cars—for hundreds less than many Six-cylinder

cars. And a Ford powered with the high-compression Mileage Maker Six costs even less.

Then, too, Ford's body is built like the best, with steel body panels of the same quality and thickness as in the most expensive cars.

Ford also proves that a car doesn't need to carry gas-thirsty extra weight to "gentle" you over the bumpiest roads! For Ford's smooth, level ride blots out the bumps... cuts front end road shock alone up to 80%!

Also, you can have your Ford V-8 with Master-Guide, the last word in power steering. Master-Guide cuts up to 75% of turning

effort yet it leaves you with the natural "feel" of steering on the straightaway.

There are many other fine-car features, too! Ford Full-Circle Visibility... foam-rubber cushioned seats front and rear on all models... finishes that are baked on over a complete rust-proofing treatment... to mention a few.

It takes all these features to make a fine car truly fine... worth more when you buy it... and in resale, too! A survey of used car lots proves that people are willing to pay a larger percentage of the original cost for year-old Fords than for any other used cars. No doubt about it, Ford's your best buy!

Worth more when you buy it... worth more when you sell it!
