

## Benefit Dance Given for Injured Monument Woman

By Millie Wilson

Mrs. Rachel Griffin who recently returned to the John Day Medical Center for further treatment for her broken hip, greatly appreciated the kindness of her many friends who sponsored a dance and supper in her behalf. As soon as she is able, she will be moved to the Mt. Vernon Hot Springs to convalesce. Mrs. Griffin who had the misfortune to break her hip last Christmas eve, is always glad to receive cards and letters from her many friends.

The Supper, Harvest Sale and Square Dance sponsored by the church will be held in the grange hall September 26. It is hoped everyone will remember the date and be out for a full evening of entertainment.

Mrs. Johnny Stubblefield and two sons left for Dayton, Ohio last Saturday. They caught the Streamliner in Pendleton at 9:35 Saturday evening. Mrs. Stubblefield will visit her parents, Mr. and Mrs. Steve Kruso and other relatives. This is the first time for several years that she has visited her parents in Dayton. No set date was made for her return. Tom Negns, of Mt. Vernon Hot Springs, has engaged a registered nurse and will now take convalescent patients. Mrs. Griffin who is now in the John Day Medical Center, expects to be moved to the springs before long.

# Water and Your Land!

What Heavy Rains Can Do - - - And How You Can Prevent Damage

175 tons of soil per acre lost from this field. Over one inch of top soil gone in twenty minutes that took Nature 1000 years to develop.

200 tons of soil per acre lost from this field. An average of almost one and one-half inches lost in one storm.

150 tons of soil per acre lost from this field. Note up and down furrows. This field was caught with its contours down.

STRIP CROPPING ON ALVIN BUNCH RANCH

PUBESCENT WHEATGRASS WATERWAY ON VERNON MUNKERS RANCH

STRIP CROPPING ON FRED MANKIN RANCH

These Fields Were Protected by Strip Cropping and Sod Waterways. Water Stopped Cutting Gullies as Soon as it Entered Wheat or Stubble Strips. Sod Waterways Carried Water Safely Off Field.

These Fields Above Left Were Not Protected and Suffered Severe Sheet and Gully Erosion. SCS Measurements Show 75 Percent of the Soil Lost in This One Storm Could Have Been Prevented by Strip Cropping and Sod Waterways.

WHO KNOWS WHEN OR WHERE THE NEXT STORM WILL HIT? WILL YOUR FIELDS BE READY FOR THE NEXT STORM?

Plan Now to Strip Crop Your Fields and Seed Waterways to Grass
