Meat Inspection Law Requested at Oregon Livestock Conference

Members of Oregon's meat industry lent their support to a compulsory meat inspection law at the recent state livestock and meat marketing conference at Oregon State college.

Nearly all sections of the industry had earlier mentioned the need for meat inspection in their individual reports. Producers, marketing agencies, packers, retailers, labor organizations and consumers were presented at the conference, sponsored by the OSC extension service.

The motion for inspection came from Larry Williams, Grant county cattleman. He asked for compulsory inspection before and after slaughter.

Three other recommendations came out of the two-day conference. One introduced by Harold Kummer, Hillsboro meat packer, asked for a committee made up of all parts of the livestock and meat industry to work out its problems. The conference had been the first time all groups in the marketing chain had met together.

Over five million packages of the WILLIAMS TREATMENT have been sold for relief of symptoms of distress arising from Stomach and Duodenal Ulcers due to Excess Acid—Poor Digestion, Sour or Upset Stomach, Gasiness, Heartburn, Sleeplessness, etc., due to Excess Acid. Ask for "Willard's Message" which fully explains this remarkable home treatment—free-at-

Another motion endorsed the apprenticeship and training program for workmen in the meat industry. Help for consumers was the final recommendation. OSC extension service was asked to consider a consumer marketing specialist for the Portland area to develop a consumer education program.

Earlier in the conference, Bill Southworth of Geneca, said one of the biggest problems facing the individual producer is to know the quality and value of his livestock. Freight rates and lack of information on sales were mentioned as other problems.

Marketing agencies, represented by Prosser Clark, Portland, and Ellis White, Ontario, suggested educational field meetings to discuss grades and values of livestock.

Packers and wholesalers committee look to new feeding and management of cattle to even market supply. They asked more attention to disease, parasites and bruises, which cause losses on market animals.

Retailers, represented by B. E. Duin of Portland and Claude Hall of Waldport, suggested teaching consumers more about meat buying, quality and cooking.

The Pioneer Service Company that represents the largest organization of business and professional men in the Northwest is calling your attention to a condition that is quite serious for the local merchants, doctors and hospitals.

- | | |
|---|---|
| <p>A. Do you realize that your grocer pays for his groceries once a week or twice a month?</p> <p>B. Do you realize that virtually all the merchants have to pay their bills every 30 days, and that when any of these men carries a customer over 30 days on his books his profit is gone, and he is losing money on his investment?</p> <p>C. Do you realize that the gas and service stations for a lot of them pay every time that gas is pumped?</p> | <p>D. Do you realize that your doctor, your hospital, and your druggist, have to pay not only their wholesale bills but also their own personal bills every 30 days?</p> <p>E. Do you realize what it costs to send statements? After the second statement is mailed out, it costs from 35¢ to 40¢ a statement. It is the handling charge on the money that really counts, not the paper, the stamps, and the time it takes to send it out.</p> |
|---|---|

So, why not quit taking advantage of your merchants and professional men, and cooperate with them by paying your bills sooner, and thus help the financial rating of your trade area as well?

BY SO DOING, YOU ARE NOT ONLY HELPING TO KEEP YOUR OWN CREDIT GOOD BUT YOU ARE HELPING YOUR MERCHANT AND DOCTOR TO KEEP HIS CREDIT GOOD.
