Ione Garden Club Makes Plans For Summer Projects

By Echo Palmateer

The Garden Club met at the home of Mrs. Ernest Heliker on Tuesday of last week with Mrs. Lana Padberg and Mrs. Carl Bergstrom as co-hostesses. Slides were shown by Mrs. Leonard Carlson, Mrs. Wm. Bergstrom and Mrs. Heliker on garden projects and other things of interest in the community. The club plans to plant a shrub on Arbor day. A donation will be sent to the National Council Permanent home fund. The erection of a new fence around the city park was discussed. Refreshments were served from a table decorated in the Valentine motif with Mrs. Padberg and Mrs. Carlson pouring. Mrs. Chester L. Ward and Mrs. Lindstrom received the door prizes.

The Maranatha club met at the home of Mrs. Gary Tullis Wednesday Feb. 10. The club received a very interesting letter from John Runyan of the McKinney Indian Mission at Toppenish, Wash., thanking the club for the \$5 sent at Christmas time. Clothing will be gathered soon for a charitable institution. Anyone having used clothing may leave it at the Noel Dobyns home on Main street. The clothing should be clean and mended. The club has a large supply of apron material and fancy work that they hope the members will work. Refreshments were served after the meeting by Mrs. Tullis and Mrs. Ciell Bea. Mrs. Wate Crawford received the door prize.

The Beta Omega sorority chapter met at the home of Mrs. Robert Rietmann Thursday evening of last week and made plans for a style show to be put on just before Easter. Their filled hope chest will be sold at that time. The sponsoring of a Girl's Scout group was discussed.

MORE AMMONIA for the farms of the expanding Northwest!

Good news for local growers

More and more growers in this area are finding that Shell NH₃ Service (nitrogen fertilizer service) helps them increase yields, cut farm operating costs and thereby net higher farm profits. These new Shell Chemical storage and supply facilities mean we will be able to assure you of an adequate year-round supply of nitrogen-rich Shell NH₃.

TO MEET the Northwest's growing need for vital ammonia, Shell Chemical plans a multi-million dollar expansion of its supply and storage facilities.

New ammonia storage spheres will be built both at Willbridge and at Pasco, Washington. When completed, Shell Chemical's ammonia storage facilities in the Northwest will hold over 300 tank cars—the largest field storage in the entire West.

To insure a steady supply of ammonia at both storage terminals, Shell Chemical's engineers have devised a unique supply system. Ocean barges of 1700-ton capacity will bring ammonia from Shell Chemical's Pittsburg, California, plant to Willbridge. River barges will carry ammonia up the Columbia River to Pasco. To augment the new water transportation system, Shell Chemical will continue bringing ammonia to the Pacific Northwest by rail. We congratulate Shell Chemical on this multi-million dollar Northwest expansion program.
