The tire sensation in 1953! Now Goodyear announces still greater improvements!

# New 1954 All-Nylon Cord Super-Cushion

All-Nylon Cord! Up to 80% stronger than standard tires!

And now! 3 great 1954 Extras!

- ✓ Even more mileage than last year!
- ✓ Much greater skid protection than in 1953!
- ✓ Quieter ride—less squeal on turns!

COSTS ONLY A FEW DOLLARS MORE THAN A STANDARD TIRE! NO OTHER TIRE AT OR NEAR ITS PRICE CAN MATCH IT!

A 21% MILEAGE INCREASE IN 1953

AN ADDED 12% MILEAGE INCREASE IN 1954

GOODYEAR

3 Quieter ride! 15% greater traction! That squeal on turns has been practically eliminated by a new anti-vibration tread design. And this new tread has 1806 inches of nonskid edges, 880 deep-cut safety slots for 18% greater skid resistance. You'll get quicker, safer stops, better skid resistance with this new tire.

There's a big difference in Nylon cord! Only Goodyear has Triple-Tempered 3-T Nylon!

Nylon is the best tire cord—if the stretch can be controlled. Nylon is naturally stronger, pound for pound, than steel; it makes a lighter weight, cooler running, longer wearing tire. But, unless properly pre-conditioned, Nylon stretches under tension.

To control the stretch in Nylon cord, Goodyear has developed an exclusive process of chemically treating the cord and then putting it through a triple-tempering process involving Tension, Temperature and Time. The result—Goodyear's Triple-Tempered 3-T Nylon Cord—the Nylon cord that is fully controlled at its point of maximum strength and resiliency.

Be sure your Nylon cord tires are made with Triple-Tempered 3-T Nylon Cord—and that means Goodyear!
