PHIL BLEARNEY, OWNER

An Open Letter To The Citizens and Voters of Morrow County

In announcing myself for re-election to the office of Morrow County Judge, I do so with a firm and sincere conviction that I have kept the pledge made to the citizens of Morrow County when I first sought the office of county judge six years ago. At that time I had a secret desire to prove to the people that the office was an important one in the county and a full time position if one was to give "value received" service. I pledged to; Make every effort to uphold my oath of office. Assume a leadership in Morrow County affairs that would promote a unification of all of Morrow County. Sponsor a planned program of road construction, maintenance and financing. Approach with human understanding the problems of old age assistance, juvenile, public health, probate and public relations. To encourage a fair and equitable tax program. To be most careful with expenditures but not to follow a "penny wise and pound foolish method". To live in the county seat and be available at all reasonable times. Five years and four months later I am convinced that the office of Morrow County Judge is a most important one and that one must be alert at all times in coping with the problems beneficial to the county.

THE RECORDS OF MY TERM ARE AVAILABLE TO ALL

Although certain individuals have condemned me personally for conditions, both good and bad, without regard for true facts, or taking the effort to get the true facts, which are available in the records at the courthouse, I have found that without the unselfish efforts of Commissioners Ralph Thompson and Russell Miller, who have contributed many days of time and energy in planning and promoting policies and programs beneficial to all of the county, that we could not have accomplished those objectives of most interest to all the people. Although we have completed many projects in which we have a just pride, the score is not perfect, nor has it pleased everyone. We do, however, honestly believe that we have endeavored by word and action and, at the least possible expense, to carry out the dictates

BASE YOUR DECISION ON THE FACTS

Because of widespread rumors and malicious statements, predicated upon selfish purposes, lack of knowledge and personal persecution I herewith publically submit for your consideration my complete denial of all the alleged wrongs and request that before you completely make up your mind if I am a proper person to continue in the office of county judge of Morrow County that you get the facts. I have no fear of the ultimate decision of a well informed person. Let us base our decision on facts and not fiction. The Morrow County Court has attempted to manage your affairs upon this formula and find that it pays dividends when properly applied. If you believe I am qualified to continue as a member of the Morrow County Court and assist in completing the programs and policies begun by this court and to further administer the affairs of the county within a budget approved by the people and their ability to pay, a vote for me at the May 21, 1954 election would be appreciated.

Sincerely and respectfully submitted
Garnet Barratt
