

Lexington Scouts Camp at Lehman

By Delpha Jones

The first week in June saw some of the Lexington Boy Scouts on a short but enjoyable outing at Lehman Springs. The mornings were spent in working toward merit badges in cooking and camping. They however had much fun, such as swimming at 2 p. m. and on during the afternoon as long as they liked. The last morning there, which was Sunday, it snowed about 5 inches. Some of the tents collapsed due to this storm. Also the boys went swimming in the snow storm and all report it much fun. Visitors during the weekend were Mrs. Alonzo Henderson and daughter Betty Ann, Mrs. Bertha Hunt, Mrs. Alex Hunt, Mrs. Maurice McCarl, Franklin Messenger, and Bill B. Marquardt, assistant scout leader.

Scouts going were: Larry and Laddie Henderson, Bobby Davidson, Vern Nolan, Gerry and Carroll Messenger, and Carl Mar-

quardt the scout Master. Several friends dropped in Saturday evening at the E. E. McFadden home, the occasion being Mrs. McFadden's birthday. The evening was spent in playing pinocle, after which ice cream, Sundaes and cake were served to the following: Mr. and Mrs. Dean Hunt, Mr. and Mrs. George Grey, Mr. and Mrs. W. E. McMullan, Mr. and Mrs. Alex Hunt, and granddaughter from Hermiston, June Cooper, Mr. and Mrs. C. C. Jones and children of Lexington and Mr. and Mrs. Ed Gonty and son of Heppner.

Lawrence Beach of Springville, Utah, is visiting his grandmother, Elsie Beach.

Mr. and Mrs. Clarence Hays and children visited at the Earl Warner home last week while enroute to Lonerock to visit Mr. Hays' parents. They returned here Sunday and Mrs. Hays and children will remain here for a

visit while Mrs. Hays is recuperating from major surgery in Corvallis.

Dinner guests at the Al Winkelman's Sunday were Mr. and Mrs. A. C. Crowell of Morgan, Mr. and Mrs. Bob Crowell and children of Cecil, Mr. and Mrs. Clarence Chular of Ione and Jack Smith and Charlie Cornell of Bellingham, Wash.

Mr. and Mrs. Ben Frieze of Draan, Ore., and son, Mr. and Mrs. Lawrence Frieze of Portland visited with Elsie Beach one day last week.

Mr. and Mrs. Delbert Hiatt from Portland were callers at the George Allyn home last week.

Mr. and Mrs. Laurel Beach and family are visiting his mother, Mrs. Elsie Beach for the summer.

Those attending the concert last Wednesday night at the Christian church in Heppner were

Mr. and Mrs. Clarence Stone, Mr. and Mrs. Don Campbell, Beverley and Phyllis Nolan, Mr. and Mrs. L. G. Wetzel and Mrs. C. C. Jones.

Dinner guests at the Hank Cornillon home Sunday were: Mr. and Mrs. Ray Papineau, and Mr. and Mrs. Ted Alberts of Heppner.

Mrs. E. E. McFadden, and Albert Fetsch of Heppner were among those baptized and confirmed at the Lutheran church in Hermiston Sunday, and those being baptized only were the

Albert Fetsch children of Heppner and the two daughters, Virginia and Bobbie Gene Majeske children of Mr. and Mrs. Eugene Majeske and Frank McFadden, son of Mr. and Mrs. E. E. McFadden.

Judy Smith of Hermiston is visiting her grandparents, Mr. and Mrs. Alex Hunt, her mother, Mrs. Lillian Smith motored over with her Saturday.

Wilbur Francis (Bill) Steagall, son of Mr. and Mrs. Wilbur Steagall left Tuesday from Pendleton for San Diego where he will start his training in the U. S. Marines.

Bill was raised in Lexington and attended all twelve grades of school here, graduating with this year's class.

Guests Sunday at the L. G. Wetzel home were Mr. and Mrs. Richard Stewart and sons of Venezuela, who are on furlough from the mission there, Mr. and Mrs. Douglas Price of Heppner and Mr. and Mrs. Howard Schilling of Hermiston, the Baptist church minister.

CHURCHES Monument News

Standard tailors a million-dollar coat for the Pacific Northwest

Timbermen used to take a loss on logs that split at the ends when they dried. Now Standard has developed a coating that reduces this "end-checking." It's Social Lumber End Seal, a wax compound that retards drying, can save millions of dollars worth of lumber a year. Besides helping conserve a natural resource, Standard also provides special fuels and lubricants designed to reduce operating costs and step up efficiency in industry. Standard serves progress in your motoring, too, with products like the world's first "Detergent-Action" gasolines and the motor oil that can save up to 3/4 gallon of gas in every 5.

- Working with you for a better Pacific Northwest**
- In Washington, Oregon, Idaho:
- 2,923 Standard employees
 - \$14,096,835 annual payroll
 - 4,810 Pacific Northwest shareholders
 - \$81,620,424 investment in plant, refinery and distribution facilities
 - \$5,000,000 worth of goods and services bought from more than 1,100 Pacific Northwest businesses in 1953
 - 2,604 independent businessmen who support themselves and their 7,081 employees by selling Standard products

STANDARD OIL COMPANY OF CALIFORNIA
75 years of planning ahead to serve the Pacific Northwest better

AS GENERAL ELECTRIC SEES IT

Few people realize how rapidly America's economy is growing

General Electric is backing its belief in a long-term period of industrial growth by the biggest building program in its history, spending more than a billion dollars since 1946

Anyone who spreads fears that we may be facing another major depression ignores completely how much America has changed since the 1930's.

First G.E. refrigerator helped create 100,000 jobs

Here are just two examples of what has happened.

The first electric refrigerator with a sealed-in mechanism was introduced by General Electric in 1926, and its production in that year required only a few hundred people. Today, refrigerators and freezers make up a billion-dollar business which employs more than 100,000 men and women in manufacturing, plus additional thousands in retailing and distribution. The freezer itself has made possible another whole new industry, frozen foods.

In 1939, most of us knew electronics only as tubes in our radio, and the entire industry sold 230 million dollars' worth of equipment. Electronics is now a 4 1/2-billion-dollar business, and some experts predict it will grow to 20 billions in the 1960's. General Electric, just one producer, now has electronic-equip-

ment factories in 13 different parts of the country and has stepped up its payroll in this field to 27,000 in just 15 years.

This trend of expansion is not slowing down. It's rapidly accelerating.

Many exciting new industries are predictable as we learn how to make full use of atomic energy. Another important new field will be electronic machinery that will make work easier, production swifter. Our scientists are experimenting with metal crystals 50 times stronger than any metals we now know. New and better home appliances are on the way. More uses for the gas turbine are coming out of jet-engine experiments.

These are only a few of the things General Electric is interested in, and other companies, of course, are hard at work on equally promising projects.

Our belief in a long-term period of industrial growth is not wishful speculation. It's being backed by the greatest building program America has ever seen. Last year, the nation's industries spent 28 billion, 400 million dollars for new plant and equipment; this year, they will spend only slightly less. Our own investment since 1946 has already reached more than a billion dollars. In 1954, a record 175 million dollars will be invested in new plant facilities by G.E., 24% more than last year.

This is the kind of confidence we have in the country's future.

Progress Is Our Most Important Product
