

Win Over Hermiston Puts Legion Nine in Playoffs; Game Here

The Heppner-Ione Junior American Legion baseball team will meet Milton-Freewater on the local field Sunday for the district championship playoff, by virtue of their win last Sunday over the Hermiston squad. Heppner's season record stands at 4 wins and one loss.

The Heppner-Ione team came out on top of Hermiston 10 to 6 in the final season game on the Hermiston field, but the boys had to play an extra inning to get the win. At the end of the regulation 7 innings, the score stood 6 to 6, but in the eighth the locals rapped out enough hits to bring in four runs and tie up the game.

Both locals and Milton-Freewater have the same win-loss record, 4 and 1, each team having lost one game to the other, and the playoff game promises to be one of the best of the season. It

will start at 2:30 on the rodeo field.

Should Heppner-Ione come out of the tussel with the district title, they will play the winner of the Eastern Oregon district here, probably the following Sunday.

The Hermiston game was a thriller, especially after the first inning when both teams were rough and committed many errors. Drake and Dougherty pitched for Heppner-Ione, with Dougherty tagged as the winning hurler. Groves and Davidson caught.

After the boys settled down, the contest was one of the best the boys have played. The Morrow hurler struck out and Denny Swanson was top hitter with 4 for 4, and one of them a triple. The batteries for Hermiston were O'Neil and Miles, pitching and Tolar catching. Miles was charged with the loss.

jams, jellies, and preserves.

Meats and poultry, however, become unsafe to eat when they start to spoil. If the odor is poor or questionable, get rid of the food. It may be dangerous. Examine each package of food before you decide what to do with it.

Be careful about refreezing vegetables, shellfish and cooked foods. Often you can't tell by the odor if they are spoiled. Bacteria multiply fast in these foods, even at 50° F., so don't refreeze any of these foods when they have thawed completely. As with meat and poultry, if there is any question about the condition of the food, get rid of it!

When you refreeze thawed food, do it quickly. If your freezer is full of warmed foods, take the food to a commercial locker plant to get a quick refreeze. Chill to 0° F. or below before taking the food back to your home freezer, and wrap it well before moving it. To refreeze food in your own freezer, rearrange the food to get the warmer packages against the refrigerated surface, if possible. Pile the packages so that the air can circulate around them. This means quicker freezing.

Tips Given on Use of Thawed Frozen Foods

Home freezer owners are often concerned with the problem of what to do with thawed food if the freezer stops running.

If the food still contains some ice crystals, it may be refrozen safely, stated home agent Maud Casswell of Morrow county. However, she adds that the quality may suffer. It is often wiser to eat food that is completely thawed rather than to refreeze it. Be sure to cook it thoroughly.

Often fruits may be frozen safely. They usually ferment when they start to spoil, but a little fermentation will not make them dangerous to eat although it may spoil their flavor. So, if fruits still taste and smell good, you can refreeze those that have thawed. Or, you may wish to use them in cooking or baking or for making

—and only a few dollars more than the low-price cars!

HAVE you been thinking you can't afford a new Buick? Listen: If you can afford any new car, you can afford a Buick — and a look at the figure on the price tag proves it. Look again, and you'll see that this is the local delivered price of the new Buick SPECIAL 2-door, 6-passenger Sedan. Compare, and you'll learn that this price is just a few dollars away from those of the so-called "low-price three."

But — dig a little deeper if you want the real clincher. That's when you find that those few dollars more you pay for a Buick buy you a lot more automobile. They buy a whale of a lot more power — Buick V8 power — plus the new economy of Power-Head combustion. They buy a lot more luxury and comfort and solidity — more room, more glass area, more frame strength, more tread width, more ride steadiness — including the million dollar "feel" of all-coil springing and torque-tube stability. They buy, too, the most advanced styling of the time, and the great panoramic windshield, and the surety that such fresh-

looking beauty will stay in the style parade for seasons to come. (That means a better deal for you come resale time.) Is it any wonder, then, that Buick now outsells all other cars in America except two of the so-called "low-price three"? Come in for a demonstration — this week, for sure. And learn, in the doing, what a big trade-in allowance our volume sales can bring you.
