

Dinner at Boardman Honors Elvin Elys On Anniversary

By Flossie Coats

BOARDMAN—Mr. and Mrs. Eldon Lilly, Miss Ora Ely and Mr. and Mrs. Allen Ely entertained at dinner Saturday evening August 28th at the Elvin Ely home honoring their parents, Mr. and Mrs. Elvin Ely, on their 25th silver wedding anniversary.

Entertainment was a solo "I Love You Truly" by Ora Ely, and was also sung for the Elys at their wedding. Anniversary waltz played by Mrs. Frank Marlow; piano solos by Elleen Ely and Barbara Anderegg; Chas. Anderegg showed many movies of local scenes taken.

Present besides those mentioned Mr. and Mrs. Nate Macomber, Mr. and Mrs. Leo Potts, Irene and Marie, Mr. and Mrs. Chas. Anderegg and Barbara, Mr. and Mrs. Frank Marlow, Boardman; Mr. and Mrs. Bill Lilly and Richard, Reith, Miss Shirley Eckelberry, Hermiston.

The "Alphas", member losers in the Sunday school contest which has been running the past three months, entertained the winning team "Omegas" with a picnic at Ralph Skoubos Sunday afternoon 1 p. m. to 5 p. m. Devotionals were led by Miss Jean Scott and Miss Zelma Cowan, with the young folks singing chorus. Games and racing were enjoyed by all.

Don't Forget the North Morrow County Fair September 9-11.

Some twelve Commercial Club members turned out Sunday, August 29 for work on the 4-H Club Building in an effort to complete the floor and roof so as to have the room for the 4-Hers at the fair. The concrete floor was finished and about one-half of the roof completed. The fair board chairman, Clyde Tannehill, would appreciate the 4-H dads assistance on the finishing of this roof before the fair time. Those working Sunday were Clyde Tannehill, Ray Anderson, George Weise, Arthur Allen, Eldon Shannon, Lester Perry, Henry Gantenbein, Max Vannoy, Ed Skoubos, Ralph Skoubos, John Cimmiotti, Buster Rands, and Joe Tate.

Other projects the Commercial Club are sponsoring is the improving of the city and making

Lucky You

by Dick Shaw

Lucky you—you got away with reckless driving

a park on the vacant lots west of the Hayes Grocery store.

Mr. J. Tuttle returned home Thursday after five days vacation with his daughter, Mrs. Paul Clarke and her daughter Darling of Grandview, Wash. The trio going as far south as Sacramento, Calif.

Mr. and Mrs. Gilmer Bolson left Thursday for Decorah, Iowa, where they expect to spend a month with relatives and friends.

Mr. and Mrs. Ray Anderson motored to Pendleton Friday evening where Mr. Anderson attended the commissioners meeting at the Temple hotel.

Mr. and Mrs. Rollin Bishop left Friday for a few days at Walla Walla and Dayton with relatives. From there the Bishops will also visit in The Dalles and Portland before Mr. Bishop returns to work.

Mr. and Mrs. Albert Ball and daughters Janice and Janet, De-Lake, Oregon, spent the weekend here at the home of Ball's parents Mr. and Mrs. Roy Ball Sr., Ball also assisted with some of the

remodeling which is being done on the house owned by Mrs. Crystal Barlow, and occupied by Mr. and Mrs. Ronald Black and daughter. Balls returned home Sunday.

Mr. and Mrs. Robert Garvison and son, Portland, were weekend guests at the home of his stepfather and mother, Mr. and Mrs. Chas. Anderegg.

Mr. and Mrs. Vernon Root and sons, Athena, were weekend guests at the home of Root's mother, Mrs. Leo Root, enroute home after two weeks vacation, most of which was spent in Canada. The Roots returned home Sunday.

Mr. and Mrs. Turman Messen-

Home Laundry Labor-Saving Hints Listed

With school days here again, many mothers are thinking about how to send their youngsters off to school looking fresh and clean. Laundering those clothes was a problem and Mary Beth Minden, Oregon State college extension home management specialist, suggests some ways to save energy and time in home laundering.

For example, careful sorting of clothes before laundering is advised. Look for any rips and tears and mend them before the clothes are washed, she says, because they usually become larger during the laundering process. That means a bigger and more difficult mending job later.

ger, Gerry and Carroll, and Mr. and Mrs. Carl Marquardt, Lexington, were Sunday dinner guests at the home of Mr. and Mrs. Elmer Messenger. The Truman Messengers are moving this week to Mitchell, where Mr. Messenger has been transferred by the State Highway Department.

Mr. and Mrs. Marion Morlan and family arrived Saturday from Fossil and are now at home in the A. B. Chaffee house. Mr. Morlan is the high school coach this year.

Mrs. Claude Coats, Mrs. Leo Root and Mrs. Frank Marlow motored to Pendleton Thursday of last week.

Mr. and Mrs. Donald Watts, of Sandpoint, Idaho, arrived at the home of Mr. Watts' mother, Mrs. Myron Watts Tuesday, Wednesday, Mr. and Mrs. Watts and mother motored to Eugene, Oregon where they spent Thursday with Myron Watts, who is employed there, also celebrating the thirty-first wedding anniversary of the Watts. The Donald Watts returned home Sunday.

Miss Patricia McGee, Junior and girls PE teacher, Walla Walla arrived Saturday and is living in one of the Root apartments over the postoffice.

Weekend guests at the George Sivard home was their son Sgt. Sicard home was their son Sgt. A. 2c Bob Ennis, Larson Air Base, Moses Lake, Wash.

Miss Zelma Cowan left Wednesday for her home in Riverside, Calif., for a two weeks vacation with her father and other relatives.

President Clyde Tannehill has called a meeting of the North Morrow County Board members and all the division superintendents Monday evening, September 6th, 7:30 at the fair building, and would like to have a perfect attendance. Important business to be taken care of at that time.

Any stains likely to be set by hot water, soap or laundering detergents should be removed in advance, Miss Minden cautions. Heavily-soiled cloths wash cleaner if they have advance soaking.

For those who live near the beach or in a sandy area, it's generally wise to rid clothes of sand before they go into the machine. Shake out as much dry sand as possible, and dunk sandy garments in a pail of lukewarm water. The sand will settle out, according to the home management specialist.

Before washing, sort clothes on a table or counter at no-bend height, Miss Minden advises. Sorting on the floor, as is often done, is hard on the back and may add soil to the clothes. Brush out pockets as you sort, close slide fasteners and remove ornaments that won't stand washing. Then sort according to soil and fabric. The day is past when all kinds of fabrics can be washed together, she says.

When putting clothes on the line, shake as you hang and hang straight to get out as many wrinkles as possible. Smooth clothes carefully as you take them from the line and put them in the clothes basket. This saves ironing labor, she explains.

County Agent News

It was estimated that a good many numbers of acres will be seeded to crested wheat grass

next spring, that is if there is enough seed to go around. In Canada they have found that trouble from seed not going through the drill or in cutting down the amounts in a grain mixed with cracked wheat, first drill, crested wheatgrass can be screening out the fine material and the real course parts of wheat. The Canadians use three pounds of wheat to one of crested wheatgrass. Set the drill to one and one fourth to one half bushels and the grass will be seeded three to four pounds per acre which is recommended.

A new circular published by Oregon State College extension service discusses the control of bees and wasps around the home and farm buildings. Effective poison how to use them, or how to move a swarm of bees to a new location to avoid destroying them are discussed in the circular. Copies of the Extension Circular 365 "Bees and Wasps, their control about the home" are available at this office.

Now they have found a new method of controlling grubs which when developed should be accepted by all livestockmen. Grubs have been killed in the backs of the cattle by feeding or injecting small amounts of organic phosphate insecticides the USDA Agricultural Research Service reports. The toxic chemicals are carried by the blood

stream to all parts of the body. Cattle grubs developing in the body soon die after dosing themselves with the insecticides. Work needs to be done yet on what are safe economical dosages of different insecticides before definite recommendations can be made. It is something to look forward to.

GOOD FOR BUSINESS

While most of us recognize the tremendous uplift electricity has given the working and living conditions of the farmer and his wife, we often forget that rural electrification has also had a gigantic impact on other walks of life, too.

The most immediate effect has been on the local merchants, like those here in our town. In the past 18 years, they have profited to the tune of billions of dollars in sales of wiring and electrical appliances and equipment. Except for electricity, they would not have had those sales, because without electricity the farm families could not have used that merchandise.

Actual studies indicate that the individual farm family spends about \$4 for every \$1 invested by the rural electric system in its facilities. Since the rural electric systems have invested almost \$2½-billion in their facilities, it's not hard to figure out that they have helped to create a \$10-billion rural market for electrical goods.

Practically all of that \$10-billion is spent locally, but much of it will pass back along the line of dealer to distributor to manufacturer. And all along the line, locally, regionally, nationally, it will be injected into the economy as salaries and wages and taxes and payments for goods and services. \$10-billion is a real shot in the arm for the economy of any country. We are proud that the rural electric systems of America have played such an important role in administering that shot.

4 Important Reasons why you should buy a PONTIAC RIGHT NOW!

1 Pontiac is One of the Greatest Cars Ever Built!

Match today's Pontiac with America's finest cars and you'll get a dramatic picture of Pontiac value. First of all, Pontiac is bigger, in fact, than many cars costing hundreds of dollars more. Pontiac is beautiful—with its distinctive Silver Streak styling. Inside, you'll find genuine fine-car luxury and appointments—along with the roominess and comfort that come only with a long wheelbase. But the big surprise comes when you test Pontiac's performance. See how alert it is to every demand in traffic, how it handles and corners almost without effort, how it takes to the open road with plenty of power to spare and saves money every mile.

2 Pontiac has the Best Resale Value in its Price Class!

Along with all its fine-car size, luxury and performance, Pontiac has a very special attribute no car at any price can beat—its unsurpassed reputation for year-in, year-out dependability. Pontiac's carefree, economical long life and its proved record of amazingly low maintenance expense are so widely known and acknowledged that it commands the highest resale value in its price class. Because Pontiac is America's most desirable used car, your original investment comes back in greater measure when you trade.

3 Pontiac is Priced Just Above the Lowest!

After you've convinced yourself of Pontiac's value, after you've considered all the good things you've heard about its dependability—see how it compares dollar-wise. Despite the fact that it's a fine car in every sense of the term, Pontiac is priced so near the lowest that if you can afford any new car you can afford a Pontiac.

4 We'll Make You a Deal You Can't Afford to Miss!

Right now we're making such liberal trade-in allowances that you just can't afford to pass up the greatest opportunity you ever had to become a fine-car owner. Come in and get the facts.

DOLLAR FOR DOLLAR YOU CAN'T BEAT A PONTIAC!
