CAMPAIGN PARAGRAPHS

Secretary of the Interior McNary in opening a four-day campaign in Western Oregon last week said, "The election of a Democratic congress would be like pulling the rug out from under the president."

Oscar Chapman, former secretary of the Interior, said at the Jefferson-Jackson dinner in Portland, "The present administration has given the people a government by gift, by grad and by golf."

Vice President Nixon has speaking engagements in Portland and Corvallis October 26.

Roger Lewis, assistant Secretary for Air, a republican, speaks in Klamath Falls October 16.

Fred Anadahl, assistant Secretary of the Interior, is scheduled for a Republican "hallelujah" in Oregon October 22-24.

Senator Albert Gore of Tennessee, renowned Democratic orator will speak in Portland October 24.

Senator Magnuson, Washington Democrat, wired Oregon newspapers Wednesday objecting to "credit given Senator Guy Cordon for moneys raised to build McNary, Chief Joseph and The Dalles dams when appropriations for every dam in the Northwest have been fought by the Republican Party."

Sponsors of the initiative to ban nets from coastal streams say legislative action will be started to establish steelhead as a game fish in all the waters of Oregon and not just the Rogue River.

Senator Guy Cordon inferred Saturday that his Democratic opponent, Richard L. Neuberger, "is a foe without responsibility... by his own admission he (Neuberger) is gathering material for a book about the campaign, which I can predict here and now will be one of the greatest works of fiction ever to come from a talented pen."

"Oregon's United States Senator Charles L. McNary fought for 12 years for Bonneville Dam," said Richard L. Neuberger in Salem Wednesday. "Did he ever come home and say, 'We have to turn this project over to the private power companies because I can't get the appropriations?' He did not."

STATUTE A MOCKERY

If the 1955 legislature fails to put teeth in the present corrupt practices act the statute will be rewritten with penalty clauses and put on the ballot at the 1956 election for the vote of the people.

This badly needed reform will be sponsored by legislators and citizens of both parties who this week pledged to keep an eye on any opposition that might develop.

Democrats are making something of the accusation that factions in two Republican-controlled legislatures have squelched proposals to amend the law.

Amendments proposed include: A penalty for candidates for office who fail to file their financial statements within 15 days after primary and general elections.

That financial statements, particularly contributions, be filed in the state elections department in advance of elections. This would give some idea of the amount of money available for candidates to spend before the voters go to the polls, as well as who is putting it up.

NEW CORPORATION CHIEF

The chief security examiner of the State Corporation Department, Frank J. Healy, was appointed state corporation commissioner Friday to serve out the unexpired term of the late Maurice Hudson, who died of a heart attack Sunday of last week.

Hudson's term would have expired January 1, 1955.

Healy, 32, is a native of Portland and has been blind since suffering a football injury in his high school days.

He received both his B. A. and law degrees from Willamette University. He is married and has two children.

Healy was sworn in less than an hour after his appointment. The oath was administered by Supreme Court Justice Harold Warner.

CONFIDENTIAL DATES

Exactly one year from the date he escaped from the Oregon State Penitentiary on October 5, 1953, Melvin H. Logan was arrested in a Los Angeles lumber mill where he was working and arrived "home" this week to occupy his old cell.

He had only five months left to serve on a twelve-year term for assault and armed robbery when he walked away from an O. S. P. work gang in Polk county.

The Basic Idea Behind the All-New 1955 PONTIAC

On Display October 29 and 30

ABOUT 30 years ago General Motors Corporation presented to America a new car called Pontiac. This new car was the direct result of a very specific idea.

The idea was this: to create a car which took its style, its engineering principles and its features from the very best and most expensive in America—and to build these into a car priced just above the very lowest!

Naturally, such an idea produced a wonderful and highly popular car—a car which millions of satisfied owners have driven with outstanding pride and pleasure.

Now, nearly three decades later, an entirely new Pontiac has been created for 1955—a car completely new from the ground up!

One thing, however, about the 1955 Pontiac remains unchanged—its basic idea—to offer the American public the very finest car that can possibly be built to sell at a price within easy reach of any new-car buyer.

When you see the new Pontiac on Friday or Saturday—Oct. 29 or 30—you will be immediately impressed by its remarkable new styling. No other car in the world looks like this new Pontiac!

When you drive it you will be astonished at its performance. For the 1955 Pontiac introduces the powerful new Strato-Streak V-8, an all-new engine that has already been proved in more than 3 million test miles!

When you price the new Pontiac you will come face to face with the basic Pontiac idea—you will be agreeably surprised that so much car, so much sparkling newness, so much luxury, so much downright goodness can be priced so near the very lowest.

We cordially invite you to come in on Friday or Saturday and see for yourself what a superb all-new General Motors masterpiece has been created to carry the wonderful name "Pontiac" for 1955.
