The Ford Thunderbird, the personal car that's been causing such a sensation, served as styling inspiration for the 1955 Ford Cars. Take one look at Ford's longer, lower, roomier dimensions—huge wrap-around windshield—new color-keyed interiors... and you'll quickly see some of the reasons why Ford's finer for 1955. Take one Test Drive and you'll want to drive it home.

For '55, there are three high-torque Ford Engines. There's the 162-h.p. V-8 with higher (7.6 to 1) compression ratio. Then there's the still mightier 182-h.p. V-8 Special V-8 which is teamed with new Speed-Trigger Fordomatic Drive and offered in Fairlane and Station Wagon models. And there's a new 120-h.p. I-block Six—the industry's most modern. All have traditional Ford economy.

Today you're bound to find your dream car among the 4 new Ford series for '55. What's more, to make your dream car come even "truer" Ford has new, smoother Angle-Poised Ride which makes all riding and handling easier. Then, too, your Ford can be as automatic as you want it with all the line-car power options.

You're cordially invited to Test Drive the '55 FORD today!
