WHEN... IT'S Planting TIME!

SULPHUR WILL HELP Your Spring-Seeded Crops!

USE BREA AQUA Plus Sulphur

Sulphur costs less than 50c per acre

official sources indicate a definite benefit in spring seeded crops if a combination of sulphur and nitrogen is added. This benefits the crop even though the sulphur content of the soil is not unusually low.

It's an All-in-One Operation

Sulphur is added to Aqua Ammonia... Nitrogen in solution and applied all at the same time so there is no additional cost in the application of the sulphur.

New Low Price on Nitrogen for 1955

Brea Aqua Ammonia Nitrogen solution will be priced lower, this year. This is due to a lower price for nitrogen per pound. And it means greater savings for you on your 1955 soil enrichment program.
