

MUSTANGS TRIM RUFUS 37 - 21

By Larry Mollahan
For the fourth week in a row Heppner posted a pair of wins on the schedule. As was expected the Mustangs conserved their energy Friday night beating Rufus 37 to 21 in a low scoring affair at Rufus.

The next evening saw Heppner putting every bit of basketball knowhow into a 54 to 37 win over St. Joseph's of Pendleton. A capacity crowd watched the Saturday night game on the Heppner home floor.

A contributing factor Friday night to the low score was Rufus' use of the famous "freeze" holding the ball and passing slowly around the defense.

Bob Grabill led the scoring for Heppner with an even ten points, Morris set the pace for Rufus with sixteen.

Grabill put on a jumpshot exhibition in the first period for four markers. Dick Kononen and Jerry Haguewood found the net once to total an eight to five lead in the first period of play.

Skip Ruhl netted a layin and one foul shot in the second quarter to total three points. Ruhl shared the scoring with Kononen who hit one field goal. Ahead by a squeak at the half 13 to 12, Heppner turned in an aggressive second half and racked 12 points in the third period to the Wolves three.

Grabill was up and in twice for four more. Neil Beamer broke in to the scoring column and matched Grabill with two twine twisters. Haguewood made good two gift shots and Kononen caged a field goal on the key.

Coach Larry Downen ran in some bench warmers in the closing period to rest the first string. Del Piper who is being groomed to take over at center next season, replaced Neil Beamer and rebounded in three baskets. A few parting shots netted Kononen, Grabill, and Ruhl a field goal.

Bluejays Clipped
Heppner had its cannons primed Saturday evening when the quint from St. Joe's arrived. The Bluejays handed Heppner their only defeat of the season a month before at Pendleton 44 to 39.

Dick Kononen pumped in 11 points to lead the Mustangs. Bill

Doherty, Bluejay center totaled 13 points for the Academy.

The Mustangs loosened a point making barrage in the first period to place them comfortably ahead ten to four.

Kononen and Neil Beamer shot through a tension charged atmosphere to cage four points apiece. Jerry Haguewood arched in a long one from the corner for the other two.

Skip Ruhl stuffed in three swishers on Larry Downen's famous pass and break play. Haguewood kept the stands gasping as he shot two more "impossibles" from the corner. Kononen hit three out of four foul shots for three points. Beamer set in a rebound and hit a gift shot for three more. Del Piper came in for Beamer and closed the half with a tip in. Heppner was out in the lead 28 to 16 at the intermission time.

Bob Grabill made good three jumpshots in the third quarter for six points. Ruhl stole the ball and was across the ten second line and down under for two pointers. Haguewood collected two points on a trip to the foul line to top off the third period score 38 to 23 with the Mustangs maintaining their lead.

The second string came into the action in the last period with Kononen hitting two layups before heading for the bench. Del Piper was in for Beamer and collected two foul shots and a rebound. Lyle Jensen and Lowell Turner each hit two foul shots along with Haguewood and Grabill who hit a long one and a jumper respectively.

Savings Bond Sales Show Big Jump Here

While 1954 marked record sales for Treasury Savings Bonds, January purchases indicate further growth in popularity among Oregon investors.

During January Oregon residents put \$5,481,659 worth of U. S. Savings Bonds in their thrift socks, according to an announcement today by county chairman Jeff Carter.

This is 52 percent more than were purchased in the same month last year and makes January of 1955 the highest in Savings Bonds sales since December 1954.

The H Bond, latest in the series of Savings Bonds offered to investors by the Treasury Department, is continuing its climb in the preferred list of risk-free investments. During January of this year \$1,438,000 were sold in the state. This is the largest amount for any month since the H Bond was put on the market in May of 1952.

"County residents continued their support of Savings Bonds by purchasing \$46,063 during January as part of their 1955 thrift program," county chairman Carter said. This compares with \$23,525 for January 1954.

Addison M. Moore

Several errors appeared in the obituary of Addison M. Moore who died in Monument January 24, which was published in this paper.

Mr. Moore was born in Elsworth county, Kansas in 1884 and came to Oregon when he was six years old. He took up a homestead near Heppner in the early days. He was married to Ellen Brown in 1905 and lived on a ranch until about 20 years ago when he moved to Heppner. Being in ill health, he moved to Monument last November to be near his son.

He leaves his wife Ellen, and one son Emory Moore of Monument, four grandchildren and three great-grandchildren.

Mr. Moore was a well-known and expert horseman and for many years took an active part in the Heppner rodeo and the Pendleton Round-Up.

Top New Vegetables Suited for Oregon

The new All-American selection of vegetables are all adaptable to growing in Oregon, according to R. alph Clark, Oregon State college extension horticultural specialist.

These 1955 vegetable winners are Seminole bush snapbean, Golden Beauty sweetcorn and Pennsweet muskmelon.

The Seminole bean was produced in Florida to fill their need for a bean to compete with Oregon's Blue Lake strains, Clark said. It is suitable for home, market, canning and freezing.

Although it is recommended for gardens all over the United States, the horticultural specialist said it may not do as well in Oregon as the Blue Lake.

Both the corn and muskmelon are worthy of trial here, he said. The corn, originated in Massachusetts, is a few days earlier than Marcross, and a heavier yielder and more disease-resistant than Far North. Its main crop is ready for picking in about 73 days. It has 12 to 14 rows of golden yellow kernels of medium depths and desirable white silks.

The muskmelon, bred at Pennsylvania State university, was developed for short growing seasons. Although it is not a commercial shopping type, it seems well adapted for home gardens and local market production, Clark reported.
