Are you getting full strength fertilization?

# Shell's way is the *Sure* way

to fertilize with Nitrogen

FIRST—AND BEST—IN AMMONIA FERTILIZATION!

NH<sub>3</sub> (anhydrous ammonia) is the fertilizer richest in nitrogen. Guaranteed 82% nitrogen, it carries more of this vital plant food than any other type of fertilizer. It provides wheat with nitrogen in a form it can use immediately, and maintains a supply of plant nourishment throughout the growing season.

When you buy Shell NH<sub>3</sub>, you get the most experienced NH<sub>3</sub> fertilizer service. Trained dealers—with years of Shell know-how behind them—supervise the whole job

for you. These specialists know local crop and soil conditions, use application equipment perfected through years of experience. *Shell's way is the SURE way!*

Shell NH<sub>3</sub> applications help speed up decomposition of crop residue, improve soil tilth, provide the right amount of nitrogen at planting time to get seeds off to a healthy start. You get healthier stands, yield increases up to 50% or more, and a return of as much as \$4 for every \$1 invested.

Ask us for a copy of the Shell NH<sub>3</sub> bulletin on the SURE way to fertilize wheat.
