Now you know!

The answer to everyday insurance problems* By Turner Van Marter & Bryant

QUESTION: I know an awful lot of people are buying some form of burglary or theft insurance but it seems to me this is just because the big insurance companies are doing a better selling job. Is the risk actually any greater than it was twenty years ago?

ANSWER: Actually the reason people buy more burglary and theft insurance is because crimes against property are steadily increasing as shown by F. B. I. statistics. Your own home is in much greater danger of being burglarized than it was even ten years ago.

*If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.

After our business meeting we made Bird Helpers to help the birds build their nests. Jean Stockard, reporter

Among the good buys found on the grocer's shelves are canned vegetables. Heading this list right now are green and wax beans and corn, not only good buys price-wise but good buys meal-wise. For instance, both make handsome vegetable dishes when they are heated, buttered and seasoned to taste. Both take well to many sauces—condensed cream of mushroom soup being an excellent quick sauce to use. If the menu needs a cold addition, try corn relish or green bean salad. Here are two specials to try.

Home Style Green Beans
4 slices Canadian bacon (or ham) 1 can (16 oz.) green or wax beans
1 medium size onion Salt and pepper

Cook bacon until brown; remove and keep hot. Cook chopped onion in the fat until lightly browned. Add liquid drained from beans and cook down to about half. Add beans, season to taste, and heat. Put in serving dish and arrange the bacon on top. Four servings.

Squac Corn
Cook a few slices of bacon until crisp; remove from pan. In about 2 tablespoons of the fat, cook some chopped green pepper and onion until tender. Add a can of corn (whole kernel or cream style) and some sliced pimiento. Heat through and add the crumbled bacon.

Complete and official figures show that again in 1954—for the 19th straight year—

MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR

No other low-priced car even comes close

to matching these important Chevrolet advantages . . .

If you're planning to buy a new car, the one you just can't afford to miss seeing is Chevrolet—for 19 straight years America's best-selling car. The Motaramic Chevrolet offers you so much more than the other low-priced cars that it's hardly fair to compare them. And even the high-priced cars don't have all the advantages that today's Chevrolet offers you.

The beauty's built in—not bolted on! Chevrolet's beauty is inherent in the basic contours of metal and glass. There's no excessive bolted-on ornamentation to go out of style overnight.

The Body's by Fisher! You see Body by Fisher on lots of the high-priced cars—and only Chevrolet has it in the low-price field!

Today's most modern engines! That goes for Chevrolet's new V8 and two new sixes as well. All bring you a modern 12-volt electrical system—double the voltage of other low-priced cars. Then Chevrolet's new "Turbo-Fire V8" has the shortest piston stroke in the industry!

A drive to suit your driving! There's silky, peppery Powerglide (even better this year!), new Overdrive (both extra-cost options), and a new Synchron-Mesh transmission that's as smooth as they come.

All the power helpers you want! Windows, seat, steering, brakes—all are available with built-in "muscles" to make driving as effortless as you wish. They're optional at extra-cost—and worth it!

Come take the key! There have never been so many good reasons why you should drive a Chevrolet!

Over Ten Million Chevrolet owners—Two Million more than any other car!
