**Citrus Basis of Slimming Salads**

In the spring of the year, everyone's thoughts seem to turn automatically to the idea of losing a few pounds, and medical authorities agree that in the case of most everyone, that's a mighty good idea. They warn, however, that this doesn't mean fasting or faddy foods; rather, that it means reliance on those foods which fortify health and afford sound nutrition.  
 Nothing gets their nod as a sensible, necessary food faster than citrus fruits, and happy we may be that this is the time of year when Florida's big juicy oranges and grapefruit are at their very best, and so inexpensive!  
 Here, a tempting salad platter combines orange slices, grapefruit sections, thin cucumber slices, shrimp, and deviled eggs, with whatever greens you prefer. The eggs and fish provide plenty of protein, the cucumber crispness, and the fruit all the flavor you could want. Serve with a French dressing, and relax in the knowledge that you've eaten wisely and well.
