Sells more...because it's worth more!

Ford's worth more when you buy it... and it's easy to see why! Only Ford brings you the long, low look of the Thunderbird and its "car-of-tomorrow" lines. Only Ford gives you the instant—and reassuring—response of Trigger-Torque power... power that whisks you up hills or around traffic... gives you "Go" when you need it for safety's sake! And Ford alone in its field gives you the solid comfort and handling ease of a new and smoother Angle-Poised Ride.

There are countless other worth-more features, from the smoothness and long life of Ford's deep-block engines to the colorfully fresh new beauty of Ford's Luxury Lounge interiors. A Test Drive will show you how many there are.

Ford's worth more when you sell it... and used car prices prove it! For years, Ford cars have returned a higher proportion of their original cost at resale than any other low-priced car. And that's further proof that Ford's first in all-round, long-lasting value.
