

### Boardman News

Continued from Page 2  
 Wilma Hug, student at Multnomah School of the Bible, Portland, spent the weekend at the home of her parents, Mr. and Mrs. Armin Hug, accompanied by Jean Eliassen, also a student there.  
 Mrs. Charlie Woolley and daughter Marcia, Pasco, Wash., were weekend visitors at the home of Mrs. Woolley's mother, Mrs. R. A. Eades. Mr. Eades returned home with them after visiting the past week at the Woolley home.  
 Mr. and Mrs. Millard Chase, Gresham, were Sunday visitors at the home of Chase's brother-in-law and sister, Mr. and Mrs. Bob Miller.  
 The County Extension Unit met Tuesday, April 19, at the home of Mrs. Ronald Black, with Mrs. Dewey West as hostess. There were 10 members present. Miss Beverly Bradshaw, extension agent, Heppner, was in charge of the meeting which was "Foundation Garments". Plans were discussed regarding the Homemakers' Festival to be here on May 3, and it was announced that the Boardman unit will be in charge of the nursery.  
 Mrs. Ralph Skoubo was hostess for a pink and blue shower at her home on the evening of April 19 in honor of Mrs. Gene Hilgel. She was assisted by Mrs. Ed Skoubo and Mrs. Ervin Flock. There were 16 ladies present. Prizes were won by Mrs. Hilgel and Mrs.

### Gunnar Skoubo.

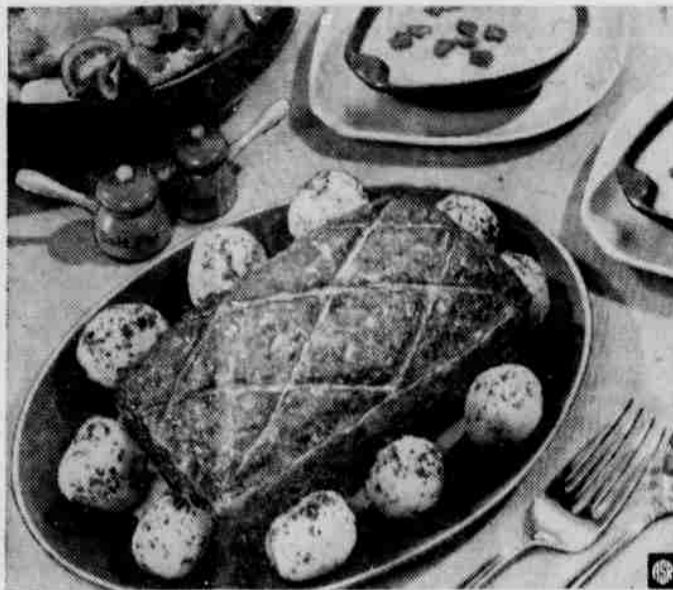

The Wives Club met Tuesday at the home of Mrs. Gren Hawes, with Mrs. Emry Nordyke and Mrs. William Angell as hostesses. There were 10 members present. They worked on their scrapbook, and made plans for a dance to be held for airforce personnel at the grange hall on May 6. The next meeting will be held at the Hawes home on May 3, with Mrs. Miles Standish and Mrs. James Valenti hostesses.  
 The Ladies Aid society of the Community church met Wednesday at the home of Mrs. Ed Kunze, with Mrs. LeRoy Fussell co-hostess. There were 16 present. Announcement was made that the next meeting will be held at the home of Mrs. Louise Earwood on May 5, instead of the regular meeting date, May 4, so that members may attend the Garden club convention which is to be held at Stanfield.  
 Roger Cavood, Portland, visited at the home of Mr. and Mrs. Ed Skoubo four days last week.  
 A/2c and Mrs. Fred Knight stopped here several days last week on their way from Weaumpke, Ala. to Portland, where Knight will be stationed. He has re-enlisted in the air force for six years. His mother and sister, Mrs. Esther Knight and Edna Knight were also here from Portland, where Edna is attending beauty school. They returned to Portland Friday.

New officers: president, Clint Mellor; vice president, Marion McHaley; secretary-treasurer, Melba Kelley; corresponding secretary, Betty Sandler; historian, Helen Holmes; chaplain, Irene Forrest; sgt. at arms, Joava Enright; child welfare, Martha Matteson. Hostesses for the lunch were Ella Durst, and Mary DuBosch.  
 Clint Mellor drove to John Day Friday morning on business. She was accompanied by Thelma Williams, George Kurk, and A. C. Owings, who went for medical checkups.  
 The Joe Mellor family spent Saturday evening visiting the Ivan Enright family of Long Creek.  
 Helen Brown and Millie Wilson are now home from a 2 weeks vacation in California visiting friends and relatives.  
 Dale Matteson is now being employed at Pendleton on a ranch.  
 Lee Fleming was home for the past weekend from his job at the Harold Evans ranch.  
 The Monument mill shut down April 19 for repairs.  
 The Tom Ross logging company will start logging as soon as the weather permits.  
 A large crowd turned out for the Stanley company auction sale at the grange hall.  
 Mrs. Lula Settle was on the sick list here Saturday.

### Cure Budget Jitters With Inexpensive Meat Loaf

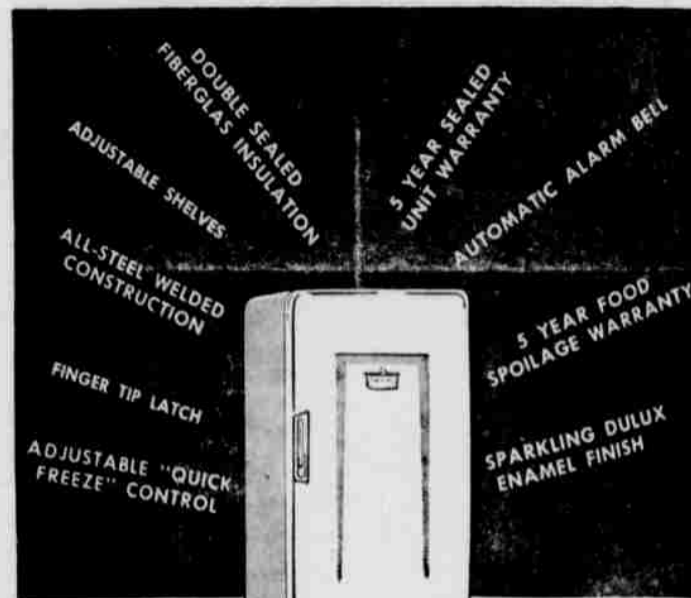

"Round about this time every year bills are pouring in, and the food budget is suffering a slight attack of anemia. The result, of course... Mrs. Homemaker is left draining her brain of ideas for serving inexpensive meals that still remain hearty and fine tasting.  
 No one will deny that meat loaf is a standby during these days and here's a really good recipe for one that furnishes extra nourishment with the addition of the cereal favorite... 40% bran flakes.  
 Start off the meal, why don't you, with a good hot soup. Then on the meat loaf platter add parsley potatoes and serve with large quantities of mixed green salad. Plenty of hot coffee (milk for the kids) will be welcome along with a simple dessert. No one will ever guess the pocketbook is "broke" if you don't mention it.  
**Savory Meat Loaf**  
 1 1/2 tablespoons diced salt pork or bacon  
 1/4 cup finely chopped onion  
 2 pounds ground beef  
 2 teaspoons salt  
 1/4 teaspoon pepper  
 1 1/2 cups crushed canned tomatoes  
 1 cup 40% bran flakes  
 Fry salt pork or bacon with the onion until the meat is crisp and the onion is golden brown. Combine with other ingredients and mix thoroughly. Pack into 10 x 5 x 3-inch loaf pan. Bake in moderate oven (350°F.) 1 hour, or until done. Serve hot or cold. Garnish with parsley. Makes 8 to 12 servings.  
 Note: If desired, add 1/2 cup drained cooked peas to the meat mixture and mix lightly.

### Heppner High School SCOOP

By Barbara Prock  
 Senior class members are being honored by a dinner at the Graham home April 28 with Mrs. Elmer Palmer and Mrs. Claude Graham, the hostesses.  
 High school track meet ribbons are being typed by the advanced typing classes.  
 Students of the Biology classes made an aquarium and are now raising guppies.  
 Mr. C. W. Johnson announced

that the 7th and 8th grade library will be combined with the high school next year. Many requests for new agazines have been made for next year and three hundred new books have been ordered.  
 Selection of a name for the Journalism plaque resulted in a "three way tie" with Lillian Elde, Sally Palmer, and Barbara Prock receiving the honor.  
 Darlene Connor competed in the U. N. contest at Pendleton on April 22 but did not place.

 2 CHEST MODELS—15.6 and 21.5 Cubic feet  
 Handy Food Baskets, Shelves & Dividers  
 Silent Operation • No Exterior Condensation

From where I sit... by Joe Marsh

### Red Finds a "Sweet Solution"

Red Jackson found a slick way to get his cows to eat what's good for them. Seems they were passing up the tall green grass—full of minerals and vitamins—and eating the short grass, which is naturally sweeter.  
 Red solved the problem by spraying a solution of corn syrup over the grass that was going begging. The cows sure went at it. Red says it's lucky for him—and the cows—that every one of them has a "sweet tooth."  
 Next week, according to Red, he's going to have his cows clean

up all the weedy grass along his fences—after he sprays them with more corn syrup, of course.  
 From where I sit, some folks, like Red, are always trying out new tricks—and others stick with the old tried and true methods. Just a question of preference, I guess. Like the way you may enjoy coffee with meals, while I prefer a cold glass of beer. So let's not allow any bad feelings to "crop up" by thinking ours is the only choice.

## Brea aqua news

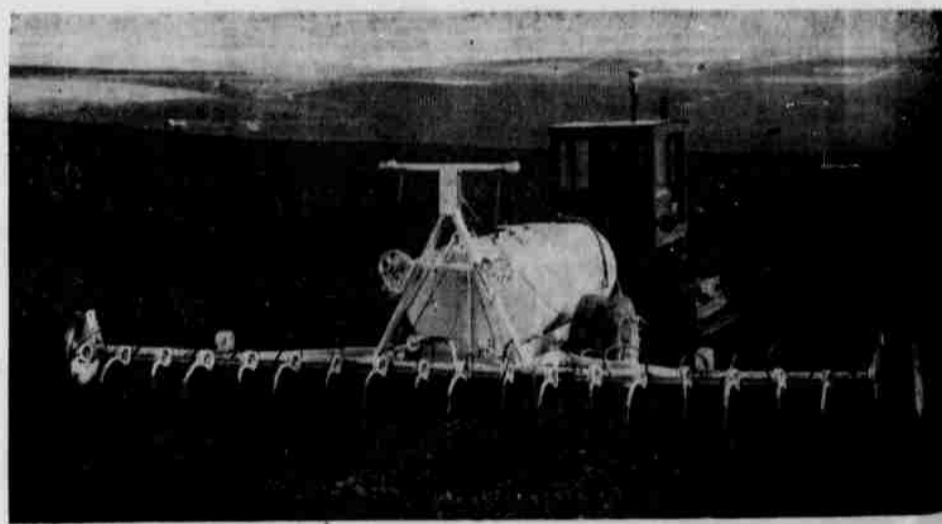

LESTER WYMAN SAYS:

Here's Why Aqua Is The Best Nitrogen To Buy:

1. It soaks in... it sticks better to the soil, goes into more soil, will stay put and grow the crop.
2. It's immediately available... no waiting for either rain or irrigation.
3. Long lasting... it contains a chemical governor which controls the rate of bacterial attack, leaving reserves for later use.
4. Accurate metering... liquids without pressure are the most accurately measured materials. You can have a printed delivery ticket, too.
5. Easy handling... pumps do the work—no lift, no lug.
6. Do it yourself... or let George do it. Aqua lends to a wide choice in application—you can handle it yourself or call on the Dealer to do it for you. This is because it can be handled without pressure tanks and stored like gasoline.
7. Works even in cool weather... the aqua solution will produce more crop growth in cool weather than the concentrated gas from which it is made; aqua is more available to do your winter-time job of crop growing.
8. Less power to put it in... since it sticks well, aqua can be placed at 4" to 6" deep instead of "down to China" which means faster application, or less tractor power. This also makes for quicker availability.
9. Keeps the soil "soft"... aqua won't drive away calcium. With aqua, you keep your calcium and keep the soil friable and fight possible alkali.
10. Adjust to weak spots... aqua drill equipment can be adjusted easily to change the rate applied according to the soil changes.
11. AND IT COSTS NO MORE.

### Shallow Drilling of Soak-In-N Pays Off for Grain Growers

SHALLOW DRILL APPLICATION of Brea Aqua Ammonia minimizes soil and seed bed disturbance, conserves soil moisture, cuts time and equipment costs.

More and more local grain producers are boosting yields and profits with Brea Aqua Ammonia... low-cost, high performance nitrogen-in-solution. Brea Aqua is a "natural" for grain. It combines easy, mechanized fluid handling with shallow drill application which soaks nitrogen into the soil at just the desired number of pounds per acre.  
 Brea's Agricultural Technical service offers these recommendations for dry-land grain: Vary the application rate with average rainfall expectancy as follows: 8-15 inches of rain—30-50 lbs. N per acre; 16-23 inches of rain—50-70 lbs. N per acre; above 23 inches of rain—70-90 lbs. N per acre.  
 If you want to save even more—avoid the fall season rush—keep from tearing up your seed bed in the fall—Agr-Chem is allowing attractive discounts for off-season application.  
 For more information and assistance in planning your nitrogen schedule—call us today. We'll be happy to show you how Brea Aqua pays for itself over and over again. You'll like our prompt service, low cost per pound of nitrogen applied, convenience in handling and the exceptional results.

Just call us and we'll come out and show you how Brea Aqua Ammonia can make more money for you.
