The answer to everyday insurance problems*
By Turner Van Marter & Bryant

QUESTION: I've had a \$50.00 deductible collision policy for years and have never profited by it. All my accidents (three) have involved less than \$50.00 so I had to pay. How much extra would I pay for full coverage?

ANSWER: Much more than you've paid for your damage repairs. Under terms of your \$50.00 deductible you're insuring yourself for damages under that amount and your premium is what you've paid out for the damage in your three accidents. You're letting the insurance company worry about the big ones that could really hit your pocketbook.

*If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.

They're not making the hills so high this year...

nor the bumps so rough!
At least that's how it seems with Ford's Trigger-Torque Power and Angle-Poised Ride

Fairlane Toton Sedan illustrated above

All the hills are sure shrinking under Ford this year! With Trigger-Torque "zoomph" from either of two mighty Y-block V-8's or the also-more-powerful I-block Six, hill-climbing is a breeze. And that goes for passing, too.

And that new Speed-Trigger Fordomatic! You get even quicker starts, even easier passing, while the touch of your toe does all the shifting. Its new automatic low gear lets you go from low, to intermediate, to high automatically with the drive selector still set at Drive (Dr.)!

Ford's new Angle-Poised Ride cushions not only the up-and-down shock of bumps... but the head-on shock as well. Even the highways seem smoother!

It's got that Thunderbird "look" too!

Ford's long-low silhouette, graceful lines... full wrap-around windshield... visored head lights... everything reflects the charm of Ford's Thunderbird-inspired styling. Visit your Ford Dealer's and take a Test Drive. You'll discover the many reasons why people who try Fords are keeping the keys.
