## Follow These Tips For Easier Painting

"Painting is easier than ever!" That's the good word from the nation's enterprising paintmakers. As proof of the promise, Arthur W. Steudel, president of the Sherwin-Williams Co., points out that "modern paints can be applied with less effort, modern tools speed application, and modern techniques of painting eliminate many inconveniences formerly associated with the task."

"As a result of continuous research and testing," he explained, "our company has improved the brushing qualities of house paint to the point where you can paint as much surface with the same effort in two hours as you used to do in three."

### Tools Simplify Task

Improved tools also help reduce the time and effort required for painting.

"For example," Steudel said, "you don't have to get down on your hands and knees to paint a floor nowadays. Thanks to a new long-handled paint roller, you can

spread the paint while standing—and paint the floor much faster. "This long-handled roller is a great time and effort saver when you are painting ceilings, too."

### Tricks Ease Job

New application tricks also make painting less disturbing to everyday family routine.

By way of illustration, Steudel suggests the following technique when painting stairs.

Paint alternate steps in each flight. Follow up by painting the others when the newly painted ones dry. That way the stairs can always be used, and nobody will be inconvenienced while the paint is drying.

All Chevrolet's competitors and most of the high-priced cars tried it recently in official NASCAR\* trials—and took a licking!

**M**et the champ! The new Chevrolet "Turbo-Fire V8"—the most modern V8 on the road today. Here's what happened—

**Daytona Beach.** NASCAR Acceleration Tests Over Measured Mile From Standing Start. Chevrolet captured the 4 top positions in its class! 8 of the first 11! And on a time basis Chevrolet beat every high-priced car, too—but one! But wait!—this is just the beginning!

**Daytona Beach.** NASCAR Straightaway Running. Open to cars delivered in Florida for \$2,500 or less. Chevrolet captured the first two places, 7 out of the first 11 places!

**Daytona Beach.** NASCAR 2-Way Straightaway Running Over Measured Mile. Open to cars from 250 to 299 cu. in. displacement. Chevrolet captured 3 of the first 5 places!

**Columbia, S. C.** NASCAR 100-Mile Race on half-mile track. Very tight turns. Chevrolet finished first!

**Fayetteville, N. C.** NASCAR Late Model Event. Chevrolet again finished first. Because of even tighter turns the driver chose to run the entire 150 laps in second gear! Yet no overheating or pit stops!

These facts you can't laugh off. Sales leader. Road leader. A crowning achievement of Chevrolet and General Motors. Try a Chevrolet... and live in a land of going-away where you win all the arguments! Soon, maybe?

### Sad Note From The Bugle

All of us on the *Clarion* were alarmed to learn that our principal rival in the newspaper field—the *Balesville Bugle*—might have to shut down.

Crops were bad in Balesville last year and one of their factories moved out of town. Just temporary hard times, of course—but the *Bugle* needs help now if it's to survive.

So, this paper is going to scrape up a little money to help tide them over, and we hope other local concerns will do the same. We've seldom agreed with them editorially over the years—but

we want their competition to keep us on our toes.

From where I sit, this country needs papers with different points of view—just as it needs people with different ideas and tastes. You may prefer iced tea as a hot-weather cooler... I generally choose a cold glass of beer. But if either of us couldn't express his opinion, and act on it, that would be "bad news" for the whole community.
