The answer to everyday insurance problems*
By Turner Van Marter & Bryant

QUESTION: I believe in carrying auto Liability insurance in a reasonable amount but I'm a young man without many assets outside my car so why should I go for one of these big policies? After all if something did happen they couldn't get blood out of a turnip.

ANSWER: All forms of liability insurance protect not only any assets you may now have but also your present and your future income! The so called "big" liability policies aren't costly and one just might make it possible for you to live a normal life instead of spending years paying off a big judgment.

*If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.
