BILL'S INSTALLMENTS

QUESTION: I'm a young mother and my husband earns just a modest salary which I stretch as far as possible. Now he thinks we should buy this comprehensive Personal Liability insurance but what with payments on our home, installments and other expenses I just can't see it. Would you give us your honest opinion?

ANSWER: Here is the best answer for you. In case you were sued how would you defend the suit? If someone got a judgment against you how would you pay for your home or handle your other expenses? The insurance you mention is very low in cost and the protection it gives will justify any extra budgeting you have to do.

\*If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.
