County Agent News

Continued from Page 2 benefit to livestockmen in selecting replacement heifers this fall.

From time to time we find some interesting information among our 4-H club members who are carrying livestock projects. From time to time we have recommended that farm flocks of sheep be bred to lamb early and lambs marketed before grass begins to dry up and while lamb prices are higher. This of course necessitates some creep feeding of lambs but those who have carried on the practice have agreed that it is profitable. A few days ago we

found that Dennis Doherty, Lexington Livestock club member, had some good gaining lambs that would make money for any owner. He has a lamb that 57 days of age weighs 60 pounds. Considering the lamb as 7 or 8 pounds weight when born, he would not miss a one pound a day gain far. He also has a lamb at 78 days of age and weighs 68 pounds. While this is a good gain too, there is a considerable difference in the two lambs with the lamb weighing 60 pounds at 57 days having it over the other one considerably. These are the kinds of lambs to select when replacements are made.

The 1954 grasshopper infestation looks like a mild infestation compared to reports that are coming in each day on infestations this year. Farmers in scattered areas in the county are reporting heavy infestations with damage to crops occurring now even though grasshoppers are half grown down to just hatching. The bureau of entomology, who are now making a detailed survey in the county report such heavy infestations that an accurate count cannot be made. Most hoppers are found in out-of-way places where they have hatched as they have not migrated to much as yet. During the past few days much organizational work has been done in attempting to secure state funds to assist with the program and some farmers have signed agreements to accept a cooperative program with the bureau of entomology. As of today, the chances are small for securing state funds and farmers are reluctant to pledge themselves to spending as much as 40 cents per acre over their entire ranch for control. It is thought that definite word will be received by the end of this week whether the state emergency board will give consideration to assisting with the problem here in Morrow County.

WORK STANDARDS UPPED Effective August 13 will be higher standards for women and minors in the fruit and vegetable packing industry.

An order issued Monday by the Oregon Wage and Hour Commission sets a 66-cent hourly wage minimum, and provides for time and a half overtime pay after 10 hours, and double time after 12 hours daily. Minor employees will be limited to 10 hours of work a day. Overtime now is paid after 10 hours.

The new order also requires 10-minute rest periods after three consecutive work hours, and weight-lifting restrictions. Meat processors also are subject to the new order.

CAR SHORTAGE STUDIED "Because of Western Oregon's rail car shortage, which occurred earlier and appears more acute this year many Oregon residents are on the verge of being laid off because of the problem of shipping out the products of the state's industries," Governor Patterson told some 300 shippers and railroad representatives at Eugene this week.

Patterson proposed the appointment of an advisory committee of shippers to work on the problem. Charles H. Heltzel, public utilities commissioner, who called the meeting also presided.

TO REBUILD COAST HIGHWAY Approval of plans to reconstruct the Oregon Coast Highway between Bandon and Coos Bay was made Monday by the Oregon Highway Commission.

The commission approved the survey and economic analysis for the project.

Also approved was construction of an .18 mile footpath along the territorial highway between Elmira shopping center and Elmira Union High school.

The Hood River Chamber of Commerce was granted authority to install scenic signs on the state highway in the Hood River Valley. The signs will be in the shape of yellow apples with red lettering.

OPINIONS ON OREGON LAWS In answering questions for opinions on Oregon laws made by state officials Attorney General Robert Y. Thornton recently released the following:

The interest of a bank in a merchant's inventory under a trust receipt is superior to the county's tax lien for prior taxes for prior years.

Acts barring women from participating in wrestling matches and exhibitions, if based on state of facts that reasonably could sustain them, would not violate constitutional requirements for preserving due process of law, equal protection of the laws and equal privileges and immunities. Within its police power, the state may clarify occupations and pursuits as forbidden to women.

Article XI-D of the Oregon Constitution was adopted for the purpose of authorizing the State of Oregon to engage in the power business and did not abolish existing Hydro-electric Commission.

Abank or trust company may not make a loan in an amount in excess of 10 per cent of its paid-up and unimpaired capital even though such loan is secured by readily marketable stock and bonds.

LIBRARY SEMICENTENIAL Miss Eleanor Stephens, librarian of the Oregon State Library left Tuesday for Philadelphia to attend annual meetings of the National Assn. of State Librarians, July 2 and 3, and the National Library Assn., which follows. Miss Stephens will conduct a panel on "The Role of State Libraries" on the concluding day of the national meeting. The annual meeting of the Northwest Library Assn., will be held in Gearhart August 29-31. The meeting will commemorate the 50th anniversary of the founding of the Oregon State Library. This meeting will be attended by librarians from British Columbia, Idaho, Montana, Washington and Oregon.

standard coast-midwest differential. The 180-235 lb. gilts and barrows of only average quality, were in continued good demand and hog volume was up sharply. Consigned were 296 hogs, compared with 122 the previous Friday and 48 a year ago. 173 sheep compared with 33 and 38, and having cut cattle volume to 256 compared with 351 and 380. The increased hog consignments brought a 50c drop in weaner pigs to \$14.25 per head, due to oversupply as consigners hoped that fat hog increases would spread to that animal.

Anson announced a special sheep sale will be held at the usual market hour of 11:30 a. m. Friday, July 8, for fat and feeder lambs and ewes, with out-of-town and out-of-state buyers already planning to attend.

Needed next Friday, July 1, are grain fed heifers and steers and better finished grass heifers. While Oregon and Washington buyers were well represented, and an unusual number of packers attended, with feeders and ranchers also contributing to the broad and active demand Friday, consignments were mostly small odd lots. The feeders bought stocker steers and heifers for potato feedlots and ranchers bought steers and heifers for irrigated pastures.

Calves: Baby calves 12.50-31.00 hd.; weaner calves, steer calves, 19.50-21.70 cwt.; heifer calves 16-40-18.30; veal 21.10-23.30 cwt.

Steers: Stocker steers 15.75-17.80; feeder steers 18.10-20.25; no fat slaughter steers; fat heifers 16.75-17.80.

Continued on Page 8

Fat Hog Price Again Climbs

HERMISTON — Fred Hoskins, Jr. and Raymond Wright of Heppner received top prices at the Hermiston livestock auction Friday. Delbert Anson, manager of the sale, reports. Hoskins was paid \$14.25 per hd. for seven mixed weaner pigs and Wright received \$14 cwt. for five white-face cows weighing 4500 lbs. Hoskins also consigned the largest cow of the day, a 1355 lb. white face cow which brought \$11.10 cwt.

One more gain in the price of fat hogs was scored Friday. The 80c cwt. rise to a top of \$22.50 was in line with continued increases in Portland, where the price was about the same, and in Chicago where it was \$2 lower.

USED CARS WITH AN OK THAT COUNTS
