Bruce M. Lindsay, County Clerk
Respectfully Submitted,
By Sadie Parrish, Deputy

SHERIFF'S AND TAX COLLECTORS' SEMI-ANNUAL REPORT, JANUARY 1, 1955 TO JULY 1, 1955

TO: Mr. Bruce M. Lindsay
COUNTY CLERK OF MORROW COUNTY
In accordance with Section 88-301 O. C. L. A. I herewith submit this, my semi-annual report of receipts and disbursements from January 1, 1955 to June 30, 1955, both dates inclusive.

TAX COLLECTION	
RECEIPTS	
On hand and Deposited Dec. 31, 1954	\$ 98,990.66
	4,816.75
1954-55 Taxes	\$43,319.45
1953-54 Taxes	6,814.68
1952-53 Taxes	1,902.84
1951-52 Taxes	795.91
1950-51 Taxes	63.69
1949-50 Taxes	10.81
Total on hand and received	\$156,714.77
Over collection	99.22
	\$156,813.99
DISBURSEMENTS	
Turned over to County Treasurer	\$155,745.73
On Deposit in Bank July 1, 1955	863.26
On Hand	205.00
Total Disbursements	\$156,813.99
TEMPORARY AUTO PERMITS	
Balance on hand \$ 3.00	Disbursements \$204.50
Receipts \$201.50	
CIVIL FEES AND MILEAGE	
Balance on hand \$ 3.34	Disbursements \$276.63
Receipts \$273.29	
PISTOL PERMITS	
Receipts \$ 23.50	Disbursements \$ 23.50

TREASURER'S SEMI-ANNUAL REPORT JANUARY 1, 1955 TO JULY 1, 1955

Mr. Bruce M. Lindsay
CLERK OF MORROW COUNTY, OREGON
In accordance with Section 88-331 O. C. L. A. I herewith submit this, my semi-annual report of receipts and disbursements from January 1, 1955 to June 30, 1955 both dates inclusive

BALANCE ON HAND JANUARY 1, 1955	\$ 943,461.99
RECEIVED FROM:	
Taxes, Sheriff's office	\$ 155,745.73
Pistol Permits, Sheriff's Office	23.50
Fees and Mileage, Sheriff's Office	276.63

\$77,498.63	

BALANCE ON HAND, JUNE 30, 1955 \$ 305,652.15
Respectfully Submitted,
Sylvia E. McDaniel
Morrow County Treasurer

The Hanford Story-

(The following is the fifth of a series of seven articles disclosing the highlights and sidelights which have accompanied the nation's development of atomic energy. Prepared at the Hanford atomic energy plant, the series deals with the human things which followed in the wake of the first historic announcement that man had harnessed the atom. It touches upon the things which lie ahead.)

By Bill Jury
General Electric News Bureau
Hanford Atomic Plant

The cast of characters vital to the development of atomic energy lists many players; scientists, engineers, designers, research teams, laborers, clerks, and strangely enough—Sheep.

Sheep and other domestic animals are an important part of a plan to probe into the many unknown of the atomic age.

In tidy pens in the shadow of the huge Hanford atomic energy plant near Richland, Wash., sheep are being studied by some of the world's foremost biologists to determine how they react radioactive isotopes. Findings from these studies already have helped scientists take longed strides in the field of veterinary medicine, and have problems pertaining to atomic energy.

What happens to livestock to excessive radiation, and, for that matter, what amount is excessive? Those questions are being answered at the Hanford plant today by General Electric company scientists whose chief laboratories are clean brick barns where their purebred Suffolk sheep are housed.

Countless experiments proved

ilities were altered or increased; suppose another plant were built elsewhere in the nation where wind currents swooped the particles to the ground instead of scattering them into the atmosphere as they do at Hanford.

One part of GE's job is to determine if a greater number of particles, or a greater concentration of particles, would be harmful to man or animals in the vicinity. Again, the team of biologists and their black-faced Suffolk sheep are providing an answer to the riddle.

Since 1950, experiments have been conducted in GE laboratories in an attempt to define the threshold level between safety and danger. The Suffolk sheep have been fed concentrated food pellets spiked with I-131, radioactive iodine. Quantities of the radioactive iodine are varied in a search to locate the amount which may be ingested daily without causing either structural or functional changes in the animal.

Every other condition to promote health is included in the care of the sheep so that the experiments are conducted on normal, healthy animals. They are among the nation's best fed sheep, stowing away liberal quantities of vitamins and minerals and nutrients in the form of alfalfa, grain, and concentrated food pellets.

In time, the biologists' work with sheep will provide part of the information that will be needed by engineers and scientists who design future atomic plants and will furnish much information of value to the entire livestock industry and to the medical profession.

Beneficial conclusions will be longer in coming, but the results will be valuable to the scientist and layman alike. (Next Week: "Radiation and the Plastic Man")

Monument News

Continued from Page 2

their boys who have been visiting their grandparents, Mr. and Mrs. Roy Cork of Kinzua.

Bob Burnside came in through Pendleton from his home in Hermiston, on his motorcycle on the 28th and visited his sister and brother-in-law, Bob and Melba Kelly before he returned to his home.

Laura Lee Shanks, daughter of Fred Schanks, granddaughter of George and Grace Starritt, was rushed to John Day Saturday

morning for surgery. Lewis Hall and Sonny arrived home Friday from Oklahoma where they visited his folks who have been ill.

Joe Ben Standfer was in Pendleton Saturday on business. Cecil Rinehart has arrived from Missouri where he has been doctoring.

Joe Whitaker is back in Monument again, after visiting with relatives in different parts of Idaho.

Hach Hobby was in town early Sunday morning on business, from his home in Mitchell, while waiting for people to wake up, he visited at the Matteson home.

WHY

Does 'Northwestern' Have A Larger Run of Good and Choice Quality Cattle Each Week?

The answer is because farmers and ranchers receive from \$1 to \$2 cwt. more for their stock at 'Northwestern' than in any other place or manner of selling.

WHY DO THEY RECEIVE HIGHER PRICES (AT LESS COST) AT 'NORTHWESTERN'?

The answer is because buyers in large numbers from a wide area recognize 'Northwestern' as a dependable source of clean sanitary, well-handled cattle.

Because Buick sales are soaring past all records—

We're declaring a profit-sharing bonus for you

1. You Profit on the Trade-In Deal
—with the biggest allowances in our history.

2. You Profit on the Buy You Make
—because in Buick you get the thrill of the year—in style, power, performance, value.

3. You Profit on the Resale
—because a Buick always resells high—brings you more money when you trade it in.

\$2638.27 delivered locally
—less the whopping big allowance we'll make on your present car!

†2-door, 6-passenger Buick SPECIAL Sedan, Model 48, illustrated. Any state and local taxes, additional. Prices may vary slightly in adjoining communities. A wide variety of extra-cost equipment and accessories available at your option.

THIS we've never seen before — a sales year that's shattering every record in the Buick book — a soaring success far greater than the one that moved Buick so solidly into the Big 3 of America's best sellers.

So we're going to share profits with you—by stretching our regular big trade-in allowances to practically our break-even point.

That means you can now buy the most wanted Buick ever built— for less than ever before.

That means you can have Buick style distinction and prestige — Buick room and comfort — Buick size and solidity — for plenty dollars less on the profit-sharing deals we're making now.

And that means you can have, at a terrific buy, the hottest-action Buick in history — with walloping V8 power raised to new highs, and with the spectacular performance of Variable Pitch Dynaflo* — world's first and only transmission using the switch-pitch principle of the modern plane's propeller.

Come in today — tomorrow, for sure — and see for yourself that you can now make the biggest buy of the year on the car that's far and away the thrill of the year.

*Variable Pitch Dynaflo is the only Dynaflo Buick built today. It is standard on ROADMASTER, optional at modest extra cost on other Series.

Thrill of the year is Buick—

Biggest-selling Buick in History! (So we're trading high, wide—and then some!)
