IONE School Notes

National Assembly programs started with a punch last Thursday. Ned Lowry, the world champion and the greatest exponent of art of bag punching, presented a very good physical education program. Mr. Lowry performs many fine tricks with the bag, but the true benefits gained are those such as good timing, rhythm, and coordination.

Mr. Lowry was very proficient in punching the bag in a variety of ways. For instance, he might punch four bags at once, two with his hands and two with his feet or he might punch blind-folded. He also hits the bag and keeps it in perfect timing with his hands, wrists, elbows, shoulders, knees and feet.

Bag punching is recognized as great for coordination and conditioner for other sports.

Our library is being rearranged by Mrs. Johnson our librarian. More books are here and more are to come. Additional shelves are being built and a new magazine rack for current periodicals has been ordered.
