IS YOUR WHEAT GETTING NITROGEN IN THE ROOT ZONE?

When you buy a nitrogen fertilizer, be sure you get one that gives you full strength nitrogen, in a form that can go to work right away, and one that stays with your wheat crop throughout the growing season.

Shell NH3 answers all these important requirements for nitrogen fertilizer. It is guaranteed a full 82% nitrogen. And because Shell NH3 is scientifically placed in the root zone, it starts feeding wheat immediately, resists leaching,

maintains a supply of plant nourishment. Shell NH3 Service-scientific nitrogen

application by Shell-trained experts assures you full value for your fertilizer dollar. Shell NH3 dealers know local crop and soil conditions. They use application equipment perfected in over 20 years of fertilizing experience.

Get healthier stands, yield increases up to 50% or more, and a return of as much as \$4 for every \$1 invested. Fertilize with NH3 the SURE Shell way!-

Ask us for a copy of the Shell NH3 bulletin on the SURE way to fertilize wheat.
