#### Your children visit a new world each week

Each Thursday, teacher turns a knob and the class enters a new world-a world many are visiting for the first time via the Standard School Broadcast.

Since 1928, this program has introduced man's musical hertiage to Western children. Now playing for its second generation, the Standard School Broadcast is probably the biggest "classroom" in history. It has an audience of nearly 1,500,000 listeners throughout the West, Alaska and Hawaii .. students in 54,000 classrooms and adult listeners at home.

They hear a symphony orchestra, a dramatic cast, choral groups and guest artists. Standard provides Teacher's Manuals as program listening guides.

Goal of the School Broadcast is to help listeners gain an absorbing new interest in music, and-through music-a broader knowledge and understanding of the world around them. We suggest that you listen in at home to enjoy the world's best music and to gain one more link with your childrens' interests. TUNE IN every Thursday . . . check your newspapers for time and station.

STANDARD OIL COMPANY OF CALIFORNIA plans ahead to serve you better

NEW! Most horsepower per dollar of any truck line!

NEW! Most comfortable trucks ever built!
