First Grade News
We have four fish in our new aquarium. We enjoy feeding them and watching them.

The first grade visited Bristow's Grocery store. We saw many kinds of fruits and vegetables and the room where mustard is made.

Second and Third Grade News
A new pupil, has entered our second grade: She is Pamela Watson from Prineville, Oregon.

The second and third grades have started working on a unit about "Homes" in our town and in other parts of the world.

The children of the second and third grades are enjoying the pencils given to them by the Rosewall Motor Company.

Fourth and Fifth Grade News
Room mothers, Mrs. Akers, and Mrs. Corley visited Wednesday and announced that the room would receive \$10.00 prize money from P-TA. \$5.00 was for the fourth grade having first 100% membership.

Both grades are working on multiplication tables and must know them soon.

Several children have brought some pretty plants for our room.

Sixth and Seventh News
The sixth grade made a large map of Central America. We put it in the back of our room.

Marlene Griffin moved to Heppner last week where she will attend school there. We were sorry to see her go.

Miss Forcilly took the seventh and eighth grade boys on a hike Oct. 13. The seventh grade boys brought back some things for the science class.

Mrs. Noel Dobyns came in and told us some things about the town library. It was very interesting and we enjoyed her talk.

All of us are enjoying the trampoline. Happy to have Mr. Pierce to help us.

Eighth Grade News
We have just completed our maps in Geography. Our new work books have arrived and we are now working in them. Each one of us make a tape recording of our book reports. We found it very interesting.

Freshmen Class News
The freshmen class all like High School. Their classes are: general science, general math, or algebra, world geography, P. E. and health, shop I and English I.

In shop the freshmen boys are doing the following things: Ivan Akers and Frank Jepsen are wood-working, Jii Swart is gas welding, and Ellis Ball has been out of school for the last ten days, with the mumps.

Sophomore Class News
The sophomores had concessions at the Umatilla game last Friday. We sold popcorn, home-made candy, pop, coffee, and hot dogs. With a fairly large crowd we didn't do too badly on the money situation. Our class advisor Mr. Stephenson proved to be quite a popcorn popper as well as a big help.

In World History we have been keeping notebooks which make

studying for those tough once-a-week quizzes lots easier. The beginning sophomore typist are making quite an advancement in their typing.

Junior Class News
The junior class has been very busy lately making football and basketball programs and planning concessions for ball games, and planning the prom. The programs are completed and look very nice. The East Oregonian printed the programs for us.

The junior class rings are to arrive November 14.

Senior Class News
The seniors are leaving for Pendleton Monday October 17, to have their pictures taken at the Coles Studio.

Our class is planning a class play. We have a committee picking out some plays and then the class will choose. We have been giving speeches in English class the last five weeks.

Home Making
Our home making class in high school has 10 students. Since the first of the school year we have been canning pears, peaches, tomatoes and making jam and jellies.

We have worked out a family budget for our own use. Our new texts books have come in handy when working out a budget.

This last week we have been having films on hair styles. We have learned how to handle and care hair of any type.

New Janitor
We have a new janitor, Delmar Crawford whom here in Ione. He has taken John Bryson's place. We wish to welcome Mr. Crawford to our school system.

The Cooks Say
The school cafeteria cooks, Hazel Jackson and Veda Brenner, report that they are feeding 85% of the entire school, but expect to feed more in the winter months. They also extend sincere thanks and appreciation to those who have donated their services.

Annual News
The Ionian is progressing slowly but surely. A new company is handling the printing of our book this year and we hope it will be satisfactory. The Myers Company is doing the printing and pasting. Mr. Coles took group pictures Tuesday Oct. 18. The advertising is nearly done and the annual treasury has nearly \$400.00.

Any one who has some good snapshots please bring them to either an annual staff member or advisor, Mrs. Johnson.

Band News
The band is doing very nicely under our new director Mr. Stephenson. He has given the band several new jolices which we like very much. Some of them are: Yellow Rose of Teas, Star Dust, Citadel, Rangers Holiday, and Latin at Large.

A new member, Bonnie Crum, is now playing the cymbals.

Mr. Stephenson has over 20 beginners in the grade school band.

Local, State and National Prob-

lems Aired in Classes
It is always very encouraging to know that when youth is given a chance to express themselves with life's everyday problems, we find they do some pretty solid thinking. These future leaders give one a brighter outlook on life, coupled with a stronger sense of security. Here are a few of their problems they as a group, have been discussing.
1. Juvenile delinquency; 2. Highway accidents; 3. Unemployment; 4. Negro problem; 5. Clean up campaigns for local communities; 6. Labor unions and strikes; 7. Credit buying; 8. 18 year olds vote?; 9. More law enforcement in local communities; 10. Divorce. These are a few of the many problems discussed pro and con. Their teenage problems are discussed very intelligently and they know their faults as a group, but they also know the many faults we as adults present.

We, as an adult group, continually blame teen-agers for the wrongs that we ourselves indirectly are at fault. If these children of ours are not given a better start in life and better patterns set up for them, we will continue to have more and more teenagers following the easy line of resistance. It takes continual hard work to be a "good citizen" and there can be no let down for us as teachers in our schools, ministers and priests of our churches, and parents of our homes and communities.

These children are our future, and we must work more with them, not just give orders and expecting them to be carried out. They, as young people, will work much better when they understand their problems and are given a chance to work with and help solve their own problems.

Let's back up our young people and listen, with an understanding mind, to their everyday problems.

Morning Fog Blankets Boardman

By Mary Lee Marlow
The first heavy fog of the season came in here last Friday, and stayed until almost noon. Since then it has come in nearly every morning, clearing up usually by mid-morning. Temperature during the day is around 60 above.

The Home Economics club of Greenfield grange met on Wednesday, Oct. 12 at the home of Mrs. Ray Brown, with potluck dinner at 12:30. Mrs. Royal Rands was co-hostess. There were 11 members present, and Mrs. P. R. Tjossem, Ellensburg, Wash., was a visitor.

Mr. and Mrs. Tjossem, brother-in-law and sister of Ray Brown, visited at the Brown home last week. Following the business meeting of the club, Tjossem entertained the ladies by showing them his petrified wood collection, which has been his hobby for 24 years. He has a remarkable collection of many different woods, carved and polished by himself into many interesting shapes. Based on stories from the Bible, he gives a short lecture as he shows his collection. There was a little church carved from petrified mahogany, with elm and oak windows, three crosses representing the Crucifixion made from petrified sycamore. There was a small replica of the sepulchre complete with the stone that rolled away from the door, and many other articles based on Bible stories.

Mr. Tjossem stated that he has gathered wood from many places, but most of his collection comes from Kittitas county, Wash. He has a unique alabaster box carved from alabaster he got in Colorado. Some of his showings were in front of lights, making the colors stand out beautifully.

He also showed his collection at a school assembly while here. Mr. and Mrs. Glen R. Mills, Jr. are the parents of a son born Oct. 8 at Good Shepherd hospital in Hermiston. He has been named Gary Wayne. Grandparents are Mr. and Mrs. Glen R. Mills, Sr., Baldwin Park, Calif., and Mrs. H. Mikeska, Highland Park, Calif. The baby weighed six pounds, nine ounces. Mrs. Mills, Sr., arrived Sunday Oct. 9 to visit her son and daughter-in-law. The Tillicum club met Tuesday night at the home of Mrs. Sid Cloud. Mrs. William Garner and Mrs. Cloud were appointed on the
