She quickly drove to the Thorpe place and got Mrs. Thorpe and as they drove back the deer crossed the Thorpe place going towards their barn. Mrs. Allen drove to town to get her husband and her gun, and they went back out to try and find them again, but never saw them. Several other hunters on hearing about it went out, but nothing more was seen of them, although several tracks were found. It is supposed the deer had come across the desert from the Heppner hills.

**4-H CLUB NEWS**

Morrow County 4-H Club members, along with members from Gilliam and Umatilla county, last Saturday participated in the annual Livestock Field Day held at the F. F. and Stanley Green's farm near Stanfield. This is the first time that Morrow County 4-H members took part in this field day but those attending felt that the day was well spent. The seventeen 4-H club members from Morrow county along with several parents and leaders had a well rounded program during the day. The program got started at 9:30 Saturday morning with John Landers, Oregon State College Livestock Specialist, pointing out the good points of an animal and what to look for in selecting breeding stock. A group of yearling and two-year old bulls were graded for confirmation.

The main program of the day for 4-H Club members was the judging contest held during the big share of the morning. 4-H members judged four classes of Hereford breeding animals and two classes of Montana No. 1 breeding gilts. Connie Anderson, Heppner, was high point individual of the Morrow county group. Connie had earlier been selected high placing individual at the Morrow county Fair 4-H judging contest. She will judge with Marjorie Peck and Don Casteel in the Livestock Judging Contest at the

Pacific International, October 15. During the afternoon, Dr. Wayne Klefzer, Veterinarian, outlined to the club members, livestock disease, diseases and demonstrated several management practices. Beef showmanship was demonstrated by Bill Horn, Pilot Rock and Roger Rothrock, Adams. Club members were able to see first hand points for good showmanship.

Those attending from Morrow county were: Lexington Livestock Club members, Jim Martin, Joe Palmer, Jafet Palmer, Carol Palmer, Tom and Louise Pointer, Carl and Sandra Beach, Dennis, Roger and Martha Doherty, Danny Wardwell, and Donald Majeske. Heppner-Buttercreek 4-H members attending were Jerry and Connie Anderson and Marjorie Peck. Club leaders, Harold Beach and Kenneth Palmer of the Lexington Livestock club, along with Mrs. Kenneth Palmer, Mike Palmer, Bernard Doherty and the County Agent, N. C. Anderson also attended.

During the past couple of weeks there has been much activity in 4-H agricultural clubs. The Lexington Livestock club, was the first to organize, while the Ione Livestock club was second with their reorganization meeting Sunday. Alfred Nelson, Jr., and Mrs. Herbert Ekstrom will lead that club this year. Officers of the club have not yet been reported to the office.

As reported last week, club members Sandra and Carl Beach of the Lexington Livestock club purchased four Southdown Hampshire cross ewes while Kenneth Nelson and Kenneth Smouse of the Ione Livestock club, each purchased two ewes of this same

breeding. Also purchased were registered Hampshire and Southdown rams to be used by all club members. A number of steers have gone on feed for projects for the 1955-1956 club year. Butter Creek Junction 4-H members, Carlene and Sandra Rhea, purchased Hereford steers from the Harvey Smith ranch near Ione, while Billy Doherty has two Shorthorns on feed now, one from the John Graves and one from the Howard Cleveland herd. Larry and George Campbell each have a calf on feed, Larry getting his calf from the John Graves herd and George using a calf from his registered Hereford breeding project. Bernard Doherty and Jack Lieuallen of that club are to receive their calves within the next few days.

In the Ione Livestock club Skip Emert has two calves from the Emert herd selected. One will go to the Wheat League show at The Dalles, the other to county fair. Kenny Linn Smouse is feeding a Hereford of the Smouse breeding, while Roland Ekstrom has a Hereford steer on feed now from the Ekstrom herd. The Lexington Livestock club, have six calves on feed with at least two more to be put on feed soon. Joe and Carol Palmer have two Herefords from The Dalles show from the Palmer herd, while Martha, Dennis, and Roger Doherty have Herefords from the Doherty and Palmer herds on feed. Russell Dolven has a Shorthorn from the John Graves herd on feed for The Dalles show. Tommy Martin and Carl Beach will put calves on feed soon.

Not to be outdone, Kenneth Nelson announces a new litter of eleven pigs from his 1954 4-H pig scramble sow. Sow and all eleven

pigs are doing fine. Kenneth Linn Smouse had the same announcement to make on occasion of his 1954 4-H scramble sow presenting a litter of nine pigs, all are doing well at this time. These are both second litters for these sows and record books show that the boys have been doing exceptionally well in income from these swine projects started through the pig scramble.

From where I sit... by Joe Marsh

**Tie This One For Consideration—**

Closed the office early last Saturday to go after pheasants with Pops Foster. I used fewer shells than the old gentleman and took home more birds—but not because I did better shooting.

I'd borrowed a dog for the occasion. Pops took along Blue, his ancient pointer. Several times I noticed Pops walk up to a clump of bushes Blue had pointed at and fire into the air—though he hadn't flushed a single bird.

Naturally, I wanted to know why. "Well," he said sheepishly, "I've been hunting with that dog for 11 seasons. His nose isn't much

help any more—but I'd rather waste a shell than let him know."

From where I sit, Pops always shows consideration for people, too. For instance, this is a small thing, but he puts a bottle of beer on ice for me when I visit him—though he never takes anything but coffee himself. Even if he doesn't agree with me on a matter of personal choice (which is his right) he'd rather not make a "point" of letting me know.
