

# Heppner Grid Schedule Reshuffled

## Games Set Today And Monday, Moro is Victor

Heppner's small rugged band of Mustangs gave a powerful Husky team from Moro a terrific first half battle, but lack of numbers plus lack of weight in the second half took its toll as the Huskies rolled on for a 20-7 win here last Friday night.

Sixteen blue and gold jerseys took the field and battled Moro to a deadlocked 7-7 halftime score. After spotting the Huskies a late first quarter touchdown, Mustang quarterback Skip Ruhl engineered a 71 yard march on 5 plays, the last 2 spread formation plays that went for 31 and 21 yards respectively.

Injuries hit the Mustangs hard as did vital fumbles on the Mustangs own 2 yard line. Post-game examinations found bruised shoulders, strained knees, injured backs, and other hindering injuries.

Fumbling opened the gateway for the game's first score. After holding the Huskies on their own 1 foot line, the Mustangs lost the ball on their own 3. A play later and Moro led 7-0 with an added extra point.

Halfway into the second stanza the horses lone scoring drive of the game played off as Skip Ruhl romped around left end on a 21 yard sprint.

Heppner's opening second half inside kick was immediately covered by a Husky lineman. Moro's Huskies took the pigskin all the way on a series of line bucks and end runs. Paydirt was struck for the Huskies for the second time of the game on an off tackle smash and went for 4 yards. Another try for point was successful, and Moro was ahead 14-7.

A fourth quarter score again from the ground gave the Huskies the deciding 20-7 margin of the game.

Second half statistics of the game showed the Mustangs were outscored, outgained and outmaneuvered.

**Game Played Today**  
Heppner's fifth league game of the year is being played this afternoon (Thursday) with the Umatilla Vikings and will prove to be a deciding factor in the choice of a tie for the league championship. This game was originally scheduled for Friday night but because the district playoffs have been set for Friday, Nov. 11, the same day as Heppner's final game was originally scheduled against Echo, the game was moved up.

sion club has shown strength several times this season. Although their last game was a 40-7 loss to Joseph, they may prove to be an upset victor.

The Echo game has also been rescheduled and according to present information it will be played next Monday night, Nov. 7 at Echo. It was originally set for Friday, Nov. 11, the same day as the first playoff game.

There was a rumor circulating Wednesday that Echo might forfeit its game to Heppner, especially if Heppner should lose to Umatilla, because of the closeness of the playoff date. Echo even with the forfeit would have only one loss compared to two for Heppner, if the Mustangs were to lose to Umatilla.

There was no verification of the story, and no officials could be reached to substantiate it.

### Mystery and Suspense Theme of Jr. Play

Chills and fever! Hot and cold. That's the way you will feel—cold with dread and suspense one minute, hot with excitement the next—when you see "The Secret Door", which is the title of the exciting three-act mystery comedy drama to be presented on the nights of November 18 and 19 by the Junior class of Heppner high school.

Here is a play in which nothing really gruesome happens, but which is so fraught with thrills that it will leave you gasping for breath at the end of every situation. You will have to use your wits, too, if you want to locate the guilty party before the conclusion of the play is reached, so don't fail to be present on the nights of November 18 and 19 to see what happens in "The Secret Door."

### Teachers Attend County Meeting

Heppner teachers met Oct. 31 for the local Oregon Educational Association meeting.

Norman Peters was elected chairman of the Christmas program committee. Edna Turner, Lena Kelly, and Blanche Boulden are also on the committee.

It was decided that each teacher give \$1.00 to the welfare fund. Mrs. Katherine Hager introduced Jack Flug who spoke on the "rural school board". He stated that he would visit the teachers and the classrooms soon. Mrs. Laura Lea furnished refreshments of pie and coffee.

Mrs. Robert Ferrell and Judy spent Friday and Saturday in Portland where Judy is receiving medical attention.

### Humphreys Drug Wins Rexall Co. Award

The Humphreys Drug Co. is now displaying a new Seth Thomas electric wall clock as a result of outstanding Rexall achievement. The clock is designated as an award of merit given select stores which meet certain high standards of operation.

The clock is engraved to designate an award of merit has been given those stores which meet certain high standards. The award is highly prized by Rexall drug stores and is part of the nation-wide program of upgrading Rexall stores.

### New Penney Manager Takes Over Here

Richard Brunner of Aberdeen, Wash., arrived in Heppner today to take over as manager of the J. C. Penney store. He replaces Jeff Carter who leaves this week-end for Payette, Idaho where he will assume management of the company store there.

Brunner will not move his family to Heppner until housing is available and Carter's family will remain here until he can find a house in Payette.

### HOSPITAL NEWS

**New Arrivals**—To Mr. and Mrs. Robert Calvin Cary, Kinzua, a 6 lb. 13 oz. girl born Oct. 27, named Crystal Jean. To Mr. and Mrs. Claud Phillips, Condon, a 6 lb. 10 oz. girl born Oct. 28, named Kathleen Sue. To Mr. and Mrs. Donavon Schwisow, Condon, a 7 lb. 14 oz. girl born Oct. 28, named Marilyn Edith. To Mr. and Mrs. James Urban Rood, Condon, a 6 lb. 9 oz. boy born Oct. 28, named James Urban, Jr. To Mr. and Mrs. Steven Howard, Heppner, a 7 lb. 9 oz. girl born Oct. 30, named Cheryl Kay. To Mr. and Mrs. Marvin Herman Hoffmann, Condon, a 7 lb. 2 oz. boy born Nov. 1, named John David.

**Medical**—Grace Ware, Ione, dismissed; Louise Adair, Heppner, dismissed; Tom Campbell, Kimberly, dismissed; Kathleen Ann Lee, Fossil, dismissed; Barbara Jones, Kinzua; Wayne Patten, Ione.

**Minor Surgery**—John Akers, Ione.

**Major Surgery**—Herbert Schram, Oakridge, Oregon.

**Out-Patients**—Joan Miller, Heppner; Al Esch, Heppner; Jerry Buschke, Heppner; Bill Brannon, Ione; Jean Sundsten, Heppner.

**Mr. and Mrs. Harry O'Donnell**, Jr. were in Portland over the weekend.

**Mr. and Mrs. Robert Penland** and Neal were weekend visitors in Eugene.

### THIRTY YEARS AGO

From Files of the Gazette Times November 5, 1925

At Portland on the 28th, the state highway commission awarded the contracts for the completion of the grading of the Lena-Vinson gap in the Oregon-Washington highway

Mr. and Mrs. W. V. Crawford arrived from Portland last evening. They will visit relatives.

Mrs. Arthur Keene and Mrs. Arthur Campbell were ladies visiting in the city Saturday from their homes on Social Ridge.

W. P. Mahoney, John Patterson, Frank Gilliam, W. E. Pruy, John Wightman, Dr. Fred E. Farrior and Thomas Brennan were members of Heppner lodge No. 69, A. F. & A. M., who went to Portland Tuesday.

Oscar Keithley states that there was a small covering of snow over the Eight Mile country early Tuesday morning.

R. A. Thompson of Heppner was a visitor at Gerald White's chicken farm last week.

A Hallow'en party was given by Miss Dona Barnett of Lexington, at her home Friday evening, to her Sunday school class of the Christian church.

### Ione News

Mr. and Mrs. W. C. Crawford, Rollo and Arthur Crawford visited at the home of Mr. and Mrs. Vernice Crawford and family of Helix on Sunday.

Mr. and Mrs. Bill Healy and Patti Jean Holt of Heppner were dinner guests of Mr. and Mrs. Ted Palmateer on Wednesday evening.

Dinner guest of Mr. and Mrs. Victor Rietmann Saturday evening were Mr. and Mrs. W. E. Melena, Mr. and Mrs. David Rietmann, and Mr. and Mrs. Verner Troedson.

**Mr. and Mrs. Fred Mankin** are on a three weeks visit in the East. They will spend some time with their son and daughter-in-law, Mr. and Mrs. Fred W. Mankin and twin daughter and son in Detroit. From there they will go to West Virginia for a short visit with Mr. Mankin's relatives and will return home by way of Canada.

**Mr. and Mrs. J. A. Hattenhauer** of The Dalles were guests on Thursday of last week at the home of their son-in-law and daughter, Mr. and Mrs. Robert Ferrell. Nancy Ferrell went to Pendleton on Friday with her grandparents where they spent the weekend visiting relatives.

### Irradiated Sawdust Eyed As Cow Feed

Digestible sawdust as an "energy" food is one of the newest peacetime possibilities of atomic energy. But don't look for it on your grocer's shelves.

If and when commercial irradiation of sawdust is possible, it will be for the double-duty digestive system of Isabella the cow.

Oregon agricultural and forestry scientists sparked by the possibility of moving the state's piles of Douglas fir sawdust into livestock feed racks, conducted trials with funds from the Oregon Forest Products laboratory. Tests were under the direction of Dr. L. F. Remmert, Oregon State college agricultural chemist.

Sawdust is roughly 60 percent carbohydrate—most of it in the indigestible form of cellulose or crude fiber. Normally, even a cow's digestive juices can't break down much wood cellulose into usable energy sugars.

Bombardment of the cellulose with atomic rays, the scientists reasoned, might split the carbohydrate into smaller units which could be more readily attacked and made soluble by stomach of rumen fluids.

Sawdust sealed in tin cans was exposed to high-level gamma ray irradiation at the AEC materials testing reactor at Arco, Idaho. And Polyethylene bags of sawdust went into General Electric company's electron-beam generator at Milwaukee, Wis., for irradiation by less penetrating but faster working beta rays.

The results: rumen fluids were able to change into soluble form one-fourth to one-third of the gamma treated carbohydrates, and about two-thirds of beta treated carbohydrates.

Actually, all digestive tests were conducted with an artificial "stomach" or test tube containing rumen juices extracted from animals, since not enough sawdust could be irradiated in initial trials for livestock feeding trials.

Although the sawdust does not become radioactive, Dr. Remmert says further tests are needed to learn if materials are formed during irradiation that might be toxic to animals or to rumen micro-organisms.

But the big question is "cost." Even with cheap sawdust and prospects for growing supplies of waste radiostopes in the near future, the physical problems of bringing the two together might price sawdust off bossy's menu.

### PIEPERS ATTEND GOLDEN ANNIVERSARY

Mr. and Mrs. Arnold G. Pieper and grandson Daryl Dick drove to Portland Thursday where they spent the weekend. On Sunday Mrs. Pieper and Mr. and Mrs. O. M. Scott of Hermiston, former residents of Morrow county, attended the golden wedding anniversary dinner and reception of Mr. and Mrs. H. F. Deyoe at Dayton, Oregon.

The Deyoes were residents of this community many years ago and are cousins of Mrs. Pieper and Mr. Scott.

### Rear-End Collisions Most Frequent Type of Accident

Rear-end collisions have been the leading type of Oregon accident.

There were 6,080 rear-end crashes during the first six months of 1955, and 5,038 of them resulted in property damage. More than 1,000 of the rear-end crashes, which traffic experts blame on inattentive driving, caused injuries and four proved fatal.

The figures, released by secretary of state Earl T. Newbry's traffic safety division, also reveal that more rear-end crashes happened at non-intersection locations than at intersections.

Other leading types of accidents during the first six months were: turning movements, 6,027; angle collisions, 3,728; side-swiped-overtaking, 2,925; parking maneuver, 2,869; backing, 1,923; side-swiped-meeting, 1,430; head-on crashes, 371; and unclassified, 58.

### October Sprays Check Grass Crop Weeds

October is a good month to spray weeds in grass seed crops, according to W. R. Purtick and D. O. Chilcote, research agronomists at Oregon State college.

Chemicals such as Chloro IPC, IPC and the new Karmex DW can control germinating weedy annual grasses in bentgrass, alta fescue, creeping fescue, chewing fescue, and Merion bluegrass. Karmex DW also will control broadleaves and velvet grass in bentgrass and alta fescue.

Spray rates, other weed control suggestions, and spring controls using 2,4-D and other weed killers are included in circular of information 351. "Chemical

Weed Control in Grass Seed Crops." Copies are available from county extension offices or from OSC.

### Legume Insect Controls Listed

Oregon farmer battles against insects that attack clover, alfalfa, and other legume hay and seed crops have received a boost with publication of a new insect-control bulletin by Oregon State college.

Illustrations and descriptions of 31 injurious insects, parts of legume plants attacked by certain insects, and control recommendations are included in the 40-page booklet prepared by entomologists E. A. Dickason and R. W. Evers.

The bulletin includes a section on mixing and applying insecticides and tells how to identify and protect insects that are beneficial to legumes. Copies of extension bulletin 749, "Legume Insects of Oregon", can be obtained from local county extension agents or from the OSC bulletin clerk.

### HAS NEW EMPLOYEE

Harold A. Laird, Echo, started work the first of the week at Humphreys Drug in Heppner. He formerly owned and operated the Echo Drug store.

His family will move here later.

Robert Kilkenny and Mrs. Lester Wyman left for Walla Walla Wednesday to attend the funeral of their uncle, James Sheridan, who passed away last Sunday. Sheridan was a former resident of the Butter Creek area where he ranched for a number of years.

Mrs. Lucy Rodgers of Portland, former Morrow county treasurer, was a guest last week at the home of Miss Leta Humphreys.
